THE PRESIDENT'S MESSAGE

As the history of the College unfolds, the size of the Alfarata Library expands. Year by year a new volume has portrayed the pictorial record of the men, women, and events making up the life on College Hill.

The present year we believe is writing a story by no means inferior to the one of the years that have preceded. This fact, joined with our confidence in the present Alfarata Staff, justifies faith in a book entirely worthy of its predecessors. I trust therefore that the students and friends of our College will find here an interesting presentation of the current life of Juniata and that this volume will justify its place on the library shelf.

DEAN OF MEN'S ADDRESS

A prime purpose of a college education is the enrichment of personality. This enrichment comes largely through the acquisition of new ideas, interest, motives, friendships, and qualities of life that will fit one for a more worthy place in a practical world. The value of a college course cannot be determined at the time of graduation, but only in years to come as it aids one in making his adjustments to the realities of life. May the years spent at J. C. endow each one with right motives and high ability for adjustment.

WARREN D. BOWMAN.

DEAN OF WOMEN'S MESSAGE

Since true education consists not alone in accumulating facts, nor in the skill to combine or discard facts, but also and probably more especially in living worthily together in community, state and nation; since consideration for others, good taste in manner and dress; co-operation not directly for our own advantage, but sometimes even to our own personal disadvantage, a pragmatic interest in the welfare of others, whether intimately or remotely associated with us; an awareness of social needs and assumption of responsibility in regard to them, also contribute to a good social life; and since one possessed of true culture can adjust to any situation, these then, are some of the ideals toward which we would strive in our life together in class, residence-halls and campus—a homelike atmosphere in which to grow.

THE SENIOR CLASS

After four years of life on College Hill, the seniors have sought and gained the dignity which only seniors may claim. United by the pleasures derived from freshmen duties, by the feeling of superiority when sophomores, by the labor demanded in the junior year, and by the joys of visions of the future during the senior days, these men and women experienced true happiness which is life devoid of contentions.

The seniors are fortunate to have within their class, students who are especially talented in art, dramatics, literature, painting, and music. Naturally these added much to the campus activities as expressed in productions presented by various organizations. Who will forget the prize winning "Stormy Weather" that the seniors produced at the annual Hallowe'en party of Inter-class stunts? Throughout the years a band played on the athletic field at inter-collegiate football games, the nucleus of which is a senior.

Upon other pages of this volume, seniors have been recognized in athletics and in organizations. Possibly Juniata would have existed without this class, but there is no doubt that this class has contributed to making Juniata a school of ideals in the development of the mind, the body, and above all . . . the Soul.

FREDRICK ALCORN

C. & F.

Brookville, Pa.

The dapper, well dressed man from Brookville. Fred has a ready wit, and likes to embarrass people with it. He showed considerable basketball promise in his earlier collegiate career, but gave all that up to become a student. With an amiable disposition and the ability to make friends, Fred should go a long way in the world of business.

See that tall fellow on the bicycle? Yes sir, that's Floyd. Floyd and his bicycle are inseparable pals . . . No, he's not going in for six-day bicycle racing, but a bicycle will get people places, and that's the main thing. Floyd is a busy man. There's always something just waiting to be done . . . a prayer meeting to conduct . . . a scout troop to be handled . . . or the Salvation Army to assist. Floyd is a real "scout" with plenty of good turns done daily.

Chemistry, Math., what have you? Evelyn has an analytical mind that just tears these sciences apart. Two most desirable characteristics are exemplified in Evelyn. She is capable and dependable. As president of the women's day student group and a member of the Women's Student Council, Evelyn has faced many problems wisely and earned the respect of all of us. Evelyn's social life is kept a deep dark secret at J. C., but we know she has one. How about it, Evelyn?

FAY AXTELL

B.S. in Music

Addison, N. Y.

"Oh, you nasty man," No, it's not Joe Penner, just Fay at some of his clowning—anything from the Hunchback of Notre Dame to Little Miss Muffet. Starting out for an M.D. Fay decided that it would be lots more fun to croon into a radio microphone and break girls hearts, so he turned musician. And now he is on his way to a place among the operatic tenors. Fay's chief extracurricular activity has graduated,—the why of those trips to Harrisburg.

CHARLES E. BARTON

A.B.

Mount Union, Pa.

Charles was such a studious lad that he was able to leave us at the end of the first semester, with his work all complete. While others were wasting their time, he could be seen concentrating on his lesson for the next period. Barton's three and a half years at Juniata have made him quite a sophisticated man, and he has that particular art of persuading people when he speaks. Snappy? Well, I should say so! Added to these qualities, we find determination and ambition, and we can predict nothing but success for him.

DAGMAR BECK

A.B.

Houtzdale, Pa.

Becky claims heritage from the sturdy Vikings. Perhaps it was her craving for adventure that led her to obtain a leave of absence from teaching this year and come to College Hill where her course has led her from deputation and choir trips to vain attempts at keeping her room quiet. Her room is the Sunday night rendezvous for the "gang", who assemble for toast, cocoa, and discussion of their problems. Becky's quiet humor and wise counsel have won for her the epithet, "the little mother of 3rd Brumbaugh". Before coming to Juniata, Becky went to Indiana State Teachers' College and later taught school at Houtzdale.

"Hi there, fella", with a big grin, a friendly slap on the back, a reachy ear for questions, and a wealth of suggestions at hand . . . that is Tom. In his three years with us Tom has had a hand in just about everything . . . clubs, parties, choir, athletics, or what have you? As an apparatus man, Tom is hard to beat, and when he feels a hand-stand coming on . . . look out. Oh, yes, there's a lady in the case . . . what Juniata has meant to Tom . . . Kay.

VIVIAN SWEET BRENNAN

B.S. in Music

Robertsdale, Pa.

A year ago she was just a sweet girl on the campus; and now she's a good house wife, managing a happy home of her own. Possessor of nimble fingers that can make a piano or a uke speak eloquently; an agreeable soprano voice; a ready wit; and an equally ready laugh, Vivian is the most pleasant company imaginable. Her specialty—"Riverside Drive". We've missed her daily presence during the past semester, but her week-end arrivals have been bright times to anticipate.

A.B.

Verona, N. J.

This attractive little lady from New Jersey has a magnetic, winning way with all those who meet her. Her friends admire her easy going manner. Since she enjoys religious work she spends much of her time at the Baptist church. This year Helen exhibited one of her previously hidden talents by singing in the chapel choir. Not only does she like to sing, but she and her pals like to be put to sleep by the soothing melodies from her radio.

Anyone else would complain that the fates were against her—but not our Judy. Illnesses may come and go, but Judy's sweet disposition goes on forever. Sometimes puzzling and deep—beyond our comprehension; other times witty and entertaining—beyond our self-suppression. Convalescing is a pleasure with keeping trysts at the infirmary and gliding along in the new Ford. To us who know her, G. E. B. spells music—her long, tapering fingers unfold the intricacies of Bach and Beethoven; her deep alto voice enriches the choir and quartet; her very presence inspires the concertmeister. Judy is indeed a friend to all.

FORREST BURLEW A.B.
Lewistown, Pa.

"But I go on forever", says the poet. "Now your technique is all wrong", says Burlew, "Watch me do it". What would the campus be without Elmer. Talk on any subject you will, and he's right there with plenty to say. On the basketball floor, it didn't take him long to prove that he was all he claimed to be, and with Elmer not in the game, it just didn't seem quite right. Whether in basketball, tennis, flute-playing, or, the arts of conversation—Elmer excells.

Hats off to "Cappy" Cook, the man who played the hardest football of the season. Although, not a leader in many victories, we can still thank Jim for showing the team how to fight hard against odds, and to show good sportsmanship, of which he is an exponent. While football season was in progress, Jim was drilling into the pupils of Huntingdon High School, the principles and ideals he had acquired at Juniata.

To us she is Turkey. When her name is mentioned some think of that auspicious redhead, some think of her dimples, while still others visualize pep and a petit figure. But just ask those who know her as a friend, and what a deluge of honors are heaped upon her! She's a pal, sure thing, straight through every red hair, and a right hand lady with lots of spirit. Can anyone explain this unusual intellect we hear so much about? Turck's pet hobby is Math, which aids her in keeping accurate statistics for the library. Helen gives promise of becoming an ideal English instructor, starting with an A in practice teaching. Her pupils will respect her for her peppy, enthusiastic, and thorough manner of presenting subject matter. As a table hostess, Helen with her friendly conversation can make even the most retiring soul enjoy herself. She is a lover of music, literature — especially biography, and good movies. "There's no place like home," says Helen, for she is devoted to her parents, brothers, and sisters. Many girls envy this charming lady, her wavy hair, rose-petal complexion, and eyes that talk.

Versatility, vivacity, loyalty, patience, perseverance, and talents find unity in Patty. It is because she is dependable, never shirking responsibility, that we have seen Pat as chairman of May Day, news editor of the Juniatian, art editor of last year's Alfarata, actress in Masquers' plays, and decorator for the Y. W. bazaar. With all her duties this enthusiastic and joyful worker has maintained her keen sense of humor and her extra supply of personality. Musical, that's Dottie. With directing a choir in town, teaching music, singing in the A Cappella Choir, quartettes etc. (etc. being too numerous to mention) we might wonder when Dottie has time for anything else but her music; strangely enough, she does. She is known as a good sport on the campus among her numerous friends. It's a wicked stick she swings in hockey also. To say the least her interests certainly are diverse. "Well I think it ought to be this way." Yes, sir. The one and only Forsht, the champion of the people. Paul has a great sense of justice and will leave no stone unturned to see that it is properly administered. His tenor voice may be heard quite often in recital around the Day Student room. Paul has a legal turn of mind too and we may see him some day in a large chair behind a large desk with a gavel in his hand, administering justice.

With everyone it seems to be a case of loving Clara at first sight. Is the attraction those clusters of little ringlets encircling her face, or is it her eyes that seem to read one's inmost soul? Popular with boys and girls alike, Clara never forgets patients in the infirmary, and showers them with books, nuts, ice cream, and Otto. Her affection for her brother, Hans, is manifest in the long letters that fly between Juniata and Princeton. This tenacious scholar anticipates serving as a medical missionary after preparing further at Temple. May her Christian devotion continue.

Commander-in-Chief of the Freshmen fume eaters in the laboratory, is a title we shall confer upon Don. As an avocation, Foulke studies German. His ambition along this line is to read in entirety a High German Bible. A member of the Student Council, the Tribunal, and President of the Chemistry Club, attest to his interest in campus affairs. We hear that Don is hoping to go on in Graduate School. We can only wish him the opportunity to get a chance. Once there, due to his training at Juniata, we know he will succeed.

ELLA MAE BAILEY HADLEY B.S. in Pub. School Music
Philadelphia, Pa.

Blessed with poise and just the proper amount of self-confidence, Ella Mae is the girl who, when once seen, is never forgotten. Her swanky clothes and perfect coiffure express an artistic inclination that also finds outlet in drawing and music. She has appeared in student recitals, and has peeped from behind her big bass viol at the orchestra concerts. Beneath seeming nonchalance, haughty gait, and Philadelphia accent is the heart of a real friend. Ella Mae believes that the fates are against the girl who marries a man whose last name begins with the same letter as her own. And then there is Spring City.

Hi, Nellie! Would you believe that heavyweight Nellie is the songbird of 3rd Brumbaugh? Any time now we'll hear her burst forth with "After the ball is overrrr", "Strolling down the avenooo", or, more probably, "I'm nobuddy's sweetheart now". Behind a carefree air, we find a serious vein which spurs Nellie on to concentrated study, including Greek. Ever faithful to Boswell (not of Dr. Johnson's circle) Nellie has retained her home town roommate for four years. Congratulations, Nellie, on your speed in finding a position!

Test tubes, condensers, acid bottles, evil odors, Chem lab and Mary. Would you believe that this attractive miss spends many an afternoon in a white lab. coat? Do you wonder Biochem is so popular this year? Mary as dietitian will make many an invalid happy. Her cheerful smile has won its way into all our hearts. "I'll be faithful forever and ever, dear". Yes, that's the radio at the end of Oneida, — where the Hall President dwells — "Betty B." Brrr—brr . . . "You're wanted on the telephone on Third". Those telephone calls keep Juniata swains at a distance, but we've seen the reason why. Last fall we used to see a red roadster speed down Moore Street. Lib's going to be a school teacher in fair Portage. Depression is almost over and the road is winding around the corner. But, those 8:15 classes certainly come too soon in the morning, and bed is just as comfortable as the road to learning.

MARY E. HOWE

B.S. in Home Economics
Johnstown, Pa.

Mary's traits are those admirable in woman. Sincere in all that she does, she has an understanding heart which serves as a balm for the fevered spirits of co-eds disobedient to college rules, and a sympathetic nature which soothes any one in sorrow. If you need anything, just go to Mary, she'll have it—from adhesive tape to drawing paper. Her talents are many, finding expression in dainty garments, cookies, songs, valentines, and birthday greetings. Mary also possesses a great capacity for love.

ESTHER CLAIRE HOWER

B.S. in Pub. School Music
Johnstown, Pa.

Beautiful blonde hair, a faultless complexion, and a lilting soprano voice describe this girl of real ability with the inferiority complex. She places a high price on poor little mouse's head, dead or alive, and when roused from slumber, Esther likes to awake, finding herself buried neath the plaster. Where would the choir and orchestra have been without her voice and her viola, to say nothing of her regular functioning as Sunday School pianist? Wherever amiable Esther is, there is sure to be conversation and laughter, unless she happens to have the blues, which come to her occasionally. The father of her little protege predicts in Esther one of the best teachers that Juniata has ever produced—for proof, ask her to teach a rotesong.

Seemingly unconscious manner. Maybe it's love, or a hangover from the concerts at Harrisburg. June has ingenuity; proofs—artistic club posters displayed on the bulletin board; carefully designed frocks and pajamas; system of pulleys for closing the window on cold mornings without getting out of bed. Typing letters for the library occupies some of her spare moments, as do choir and orchestra rehearsals. One of the few endowed with grace, dignity, and poise. Don't let it worry you attitude. Harry is a fellow all of us admire. Although handicapped in some ways Harry has been an athlete of the first order, speedy and shifty on the basketball floor and the biggest "gun" on the baseball team. Harry's modesty is astounding. His success in athletics, and even being a council member did not cause him to become egotistic. But an unusual thing has happened. Harry has become quite a Romeo of late. Eh, what! An injury to his ankle cut short his basketball career. We hope for recovery by the time baseball season opens, and wish the valiant warrior a "heap big" success in life.

It is easy to tell that she will get where she's going, if being on the move means anything. Of course riding the train everywhere is bound to get one somewhere, even if it is Petersburg. Speaking of riding the trains—it "ain't what it used to be." They have substituted a caboose for a rear platform. She should be awarded a medal for living through all "the rides" she took in her four years.

Lou is quiet and reserved, but as friendly as can be when you get to know her. She loves to chat with her friends, but with practice teaching and living in the Practice House those chances have been few this year. Remember those white mice? We wonder why the one was called. . . ? And then those days of wheeling around the home ec baby . . . and the bacteriology labs . . . what pleasant memories of college days! Lou loves to read, and many nights while she was away practice teaching, the hands of her clock have chased around . . . and she would like to knit, "but I never could do that."

Mary's heart is still at Elizabethtown, although she has been with us for the past two years. Perhaps it is the place, or perhaps . . . but that would be telling a secret, you know. The "sax" that Mary plays resounds once in a while through Oneida Hall. She used to play in a championship band, and we wonder why she doesn't play more here. A school teacher Mary would be, and teach the little boys and girls all about mathematical rules and dates. Will there be an Astronomy class? Will the farm up north, or the one down east prove more attractive? Lancaster County is a garden spot of Pennsylvania, so they say. An old maid aunt doesn't sound like our Mary.

Well, I hope you know that this fellow is romantic, so they tell me. Had Jimmie worked at his studies as hard as he did at Track, he would have been a Genius. So he tells us, as he has been telling us for the past four years, that he will run that "440" in better time than "Elmer", with ten pound weights in his hands! James had more endurance packed in that little body than was expected. He not only made himself an asset to the Track Team, but also, to the A Cappella Choir.

Hats off to "Chubby", one of the best all-round football managers Juniata ever had. A hard worker, himself, he knew how to keep the tomahawks sharp, and the tepees in order, for the Warriors of Juniata. Although, wrapped up in his managerial duties, Ward found time to go to the movies and also, roam around Third Founders. This young chap, always acted kind of timid when he was in those Third Founders groups; those sort-of-quiet boys. Then, "Chubby" became a dignified senior, and decided to move over to the New Dorm. Not only has Don won the varsity "J" for three years, but is an excellent student, and takes great delight in "lofting" his marks up to 100 in chemistry tests. If his success in life is as great as his success in Juniata, we may well be proud of him.

JOSEPH SHELLY

Emaus, Pa.

B.S.

Der Tchoe, ein Deutscher von Emaus, one of the biggest men on the campus, with a heart almost as big as he is. Joe's big deep voice helps to hold down the A Cappella Choir and he might double for Frankenstein without difficulty. He also showed his ability in leading the Volunteers this year through a successful convention. Tchoe must have read somewhere that it is not good for man to live alone, for he may be found pretty often down on Moore Street seeing what can be done about it.

LYLE SHERWIN

Windber, Pa.

Pre-Med.

"Speedo" is Lyle's football moniker, and believe it or not, he earned it. Sherwin is a hard worker and knows his pre-med. field. With his diligence in work, and his desire to become a good doctor, we know he will be successful in the medical world.

On the other side Lyle finds time to joke with the fellows, and has become a pal to all of us. Take heed, Lyle, the world is in need of a good doctor.

Dottie! One of the bright spots of the day student club room. Did we say bright? She just marshals those courses around in her own way and there's nothing more to it. And fun—well, just ask her. She was surely missed those fifteen weeks she was practice teaching. Everyone had to furnish his own fun. Of course it was to her advantage. She can teach all ages now. Not that she couldn't before—but it's a business now. What the day students will do without her next year is a puzzle. Who will sit on the table, or who will do all those things that mean, just, Dottie?

HENRY W. SHOENTHAL

New Paris, Pa.

Introducing President Shoenthal of Student Council fame, handsome, well-dressed, and perhaps a little reserved. It seems that his cleaning and pressing job has been handed down from one council president to another, but de-press-in is bad this year, you know. All interested parties may find Hennie at Jefferson next fall, on his way toward an office with a big M. D. on the door.

And here we have the other half of the company of Shoenthal and Shoenthal. Jim hurried a little, so that he too might begin his medical work at Jefferson next year. Chief among his diversions seem to be rides in a certain Chevrolet roadster, where and to what is a mystery to all. Of late, Jim has become somewhat attached. Gentlemen prefer blondes, you know. Success in medicine, is all we can ask for a former classmate.

Get Smitty mad? Oh, my no! She is one of those lucky persons blessed with an even temper which nothing can ruffle. As "Y" president, she has had a successful year. As librarian, she has been ever accommodating. As last year's basketball manager, she knew how to back up a team and urge them on. This year the team missed Smitty's quick passing and high jumping, but she continued to be a booster. Here is one tall girl with grace and rhythm in her very being. We hope she never goes astray, but don't mind if she gets caught in the "bramble."

W for words, E for expression, S for seriousness. These, plus an adeptness for mastering the Greek, German, and English languages almost describe Wayne. He is interested in history, and we believe he is one of the deepest thinkers on the campus. He delves into philosophy more than the average person. Wayne is religiously inclined and is interested in all religious work. In addition, Wayne is romantic, not only in his poetry, but also in his associations with a certain young lady.

Dotty believes in ending all telephone conversations with, "It's study hour. Call 9885." She's our Y. W. worker who grieves deeply when any one is ill because, "Aw gee, now I have to send another card." Dotty is faithful to the library, reads extensively, and laments that lots of nice girls don't even read the Atlantic Monthly. A social creature who likes to discuss her problems in life, and the uses of Boric Acid. We like Dotty, both in and out of her moods, whether cataloguing or tatting.

She can always find time for hiking, skating, and helping Sigma wade through club programs and financial reverses. If you think Solly doesn't have fun, ask her to let you see her scrapbook. Quiet, unassuming, neat in appearance, with a bit of hair inevitably hanging over his forehead . . . that's Alton. Although he hasn't much to say, we hear that he often has "Mary" times. Alton wants to become a banker, and do his work with his brain. His clarinet is a valuable addition to the orchestra, too. He should make a very good banker, and the Juniata family wishes him success.

ROBERT STEWART

Behold the chief of the Indian Tennis warriors, whose adroit speedy playing, smashing serves, snappy back hand strokes, and all-around superior playing, gained for him the honor of leading his teammates this season. Bob goes about his work with an attitude of determination equalled only in his tennis, and ought to find plenty of success in the world of business.

CHARLES STOYKA

Colver, Pa.

Here is another of Prof. Connor's proteges and an aspirant for the title of C. P. A. First it was Rugh-Stoyka, then Rugh-Stoyka-Rudolph. They were inseparable, and what a trio! They spent their spare time at Skip's and the movies, and could tell you anything from the reason for May West's success, to the latest theories concerning money and the value of the dollar. Stoyka has plenty of wit, is a good thinker, and a real pal. We wish him success in the world of business.

Tree has a remarkable ability to "take it," and proved and reproved it on the gridiron, for which he won, not only the admiration, but the friendship of every fellow on the squad.

On the Baseball Nine, he is a reserve backstop, and a good one too. It is rumored that Mike is interested in a "cough drop" company, of late. Can you affirm this? We will sure miss you, Mike. We wish you much opportunity and success, because you deserve it.

Vare, oh vare is Issy now? When you hear someone singing with perfect high notes, you know it's Issy, the songbird of the class. But Issy can do more than sing . . . what is a music student who can't play a piano? You should hear her wade through classical music, rattle off every latest jazz tune, and if you want peppy pep meetings, Issy's the one for school songs. Since she is just itching to teach music, we hope she may know how to reach success without forgetting to sing for us over the radio.

For three years Sonny was so bashful that if a girl looked at him, he would blush furiously. But now, due to some change in his nature, he has become a real ladies' man. We wonder how it was possible for him to remain a bachelor for so long. Watkins is one of the leaders in the science department. That he is good there is no question. He thinks he is slipping terribly if he makes a B. A likeable chap, and a kind of a fellow we all like to call our friend.

GRACE WESTBROOK

A.B.

Williamsburg, Pa.

Ever so bright and congenial is our Grace. But when it comes to getting up in the morning . . . it is much easier to let someone else start the work. Grace loves to hike over the hills around Juniata, or even walk down the street for the fun of it. Ask her how she liked her practice teaching, and those early morning walks! She never worries and she just loves to have the other person wondering what is going to happen . . . and also wondering where her clothes are. The dining room will not seem the same without her and her ideas of what certain people should do.

Quiet? We used to think that too but we know better now. Mary only appears to be quiet. When with friends and at ease she can be the life of any group. You heard about some of those lively times in the Practice House? Well, Mary was right in the midst of them. It's a shame that the Home Ec. girls have so many afternoon classes because matinees still seem to have a special attraction for Mary. Always well-liked in the day student room and on the campus, we know that Mary will be an admired teacher.

CLARA WILLAUER

Quakertown, Pa.

Yes, she's embroidering towels—for mother! Tell us the secret, Clara, are they for that hope chest? Even in this sedate little lady's life there lurks the shadows of a sandy-haired Johnny. Her merry giggle and laughing eyes could chase away the sternest frown and darkest looks. Perhaps her study of German, perhaps her own deeply spiritual nature, helped her understand motives and intentions, helped her solve our problems more easily. A friend when others were gone, a friend in mischief and fun. She loved to hike over the hills, play hockey, read German. Clara came to us from Muhlenberg. She stayed only a year and a half but in that short time she became a part of Juniata life and activity. Good luck to Quakertown!

JUNIOR CLASS

Being upper classmen has not detracted from this genial class of juniors. They are entering into the high tide of their college life, and with full assurance that each year made them a class of mature students, who are capable to steer clear of life's problems.

The Juniors have shown their initiative in class work. This year they were especially interested in the new policy in publishing and financing the *Alfarata* for future years.

Throughout the year they have unceasingly watched and cared for their weaker sister class—the freshmen. By doing these things, the Junior Class is building a character which it can cherish, and which will distinguish it from any other class in this generation of Juniatians.

Class

SAMUEL ALEXANDER

Madera, Pa.

Sam was quite a bashful lad when he came to J. C., three years ago, but now he has become oriented and holds his own with anyone. He acquired the knowledge of so much Math and Physics that he is now a worthy lab assistant. Sam has also developed into a witty person and tells many yarns at the table. He peps up a party with his songs and music.

BETTIE AYRES

Huntingdon, Pa.

Here and there and most everywhere. That's Bettie. Her interests are many and various. Here, there and everywhere; but always in one direction—Science Hall. Why? Oh, for cooking, biology, chemistry and—your guess is as good as mine. You can't fool us, Bettie. But for all her science, Bettie is always right up to the minute with those snappy looking outfits. Is she glad gym is "worked off"? Just ask her.

EDWARD BARKLEY

Huntingdon, Pa.

A joker, a would-be taxi driver, who hauls students to and from school in his Buick, a good sport . . . that's Barkley. If he does something wrong, you should hear his alibis. Ed is one of the baseball managers this year, and regrets that he has to work a little. Watch those white hands, Ed! He is a scientist and is on his way to become a teacher in this field. Having the advantage of receiving many pointers from his father, he ought to be a good one.

ADELE AICHELMAN

Altoona, Pa.

Adele is the pride of the day students. She's an A student and rightly so. Do you want to know something? Adele can tell you. We know a joke on her though. Ask her why she gave a fourteen page term report orally. She knew what it was all about, but it seems that her teacher didn't. These teachers can't know it all. Adele is taking history from J. C. but she's leaving her own here.

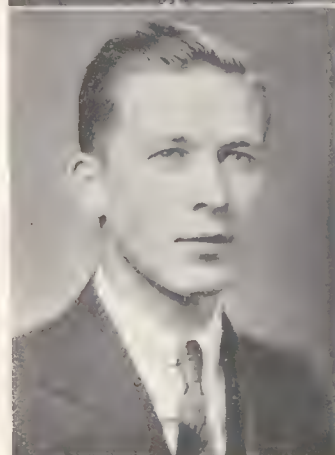

Junior

PETER BASILE

South Fork, Pa.

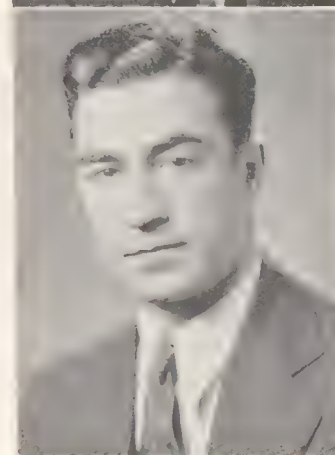

The newest styles, the snappiest clothes, the latest wise cracks, all typify Pete. He is just the type that is a perfect ladies' man. Downtown, on the campus, here, there, anywhere, Pete knows them. He is never lonely, he is a go-getter, and an all-around college man, and we all like him.

KENNETH BEERY

Altoona, Pa.

Ken's chief aim in life is to imitate Dr. N. J. Brumbaugh, and then become even a better chemist. It is a high aim, but we hope he has fortune enough to accomplish it. At present he is lab assistant, both on the campus and at the Altoona Center. Ken is a very charming fellow, and we wish he could be on the campus much more than he is at present. We are sure Ken will make the most of the opportunities that he will receive here at Juniata, and then carry them to perfection out in later life.

LEROY BLOOMINGDALE

Glassboro, N. J.

First of all we must commend Bloomie's stellar performance on the gridiron this year. He was "in there" all the time. Then, he is interested in business, and under Professor Connor and Dr. Heiman's direction we know he will develop into a fine business man. It never pays to run from this lad, because he is an exceptionally good track man.

PHYLLIS BUCKMAN

Philadelphia, Pa.

Phil comes from Philly where they grow them fine and dandy. Somehow Maryland seems to have triumphed over Pennsylvania. Phil has two hobbies—knitting and helping—oh, well, why tell the secret, or is it a secret? We can't help but wonder how soon Phil will go into the sweater business or that other interesting scientific field. There was plenty of snow this year for the intrepid young sledders to take advantage of . . . Evening trips to Skips . . . a certain note . . . a black . . . but then that's just a part of the Juniata fun. Diets . . . dresses . . . and all those home ec problems lead Phil a merry chase. If it isn't that it is something else. A jolly good pal. Let's go for a hike!

Class

CLAY BURKHOLDER

Altoona, Pa.

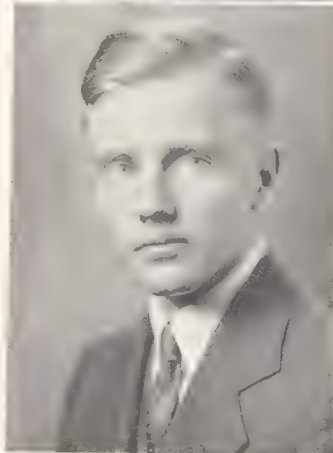

Here is a real student who thinks things out for himself. Since he has worked for a number of years to obtain funds to come to college, he knows the value of education and does not miss an opportunity when it is presented. Clay is quiet and reserved. He is a friend of all.

PAUL BYER

Williamsburg, Pa.

Paul is one of the diminutive members of the Juniata tribe, that is in stature. However, he can take his own part verbally, when necessary. He is interested in Physics teaching. When a freshman, Paul shaved every day and sometimes twice a day in an effort to encourage a little bit of beard. Have you noticed how well he has succeeded? Paul is rather quiet, good-natured, and friendly. This year he has become active in intra-mural games.

GEORGE CASWELL

Altoona, Pa.

Here is a newly-found songster. Nothing is too new that Caswell hasn't heard it. He seems to know all of the answers. George is one of the best mannered young men about the campus. He believes in being well dressed and acting the part of a gentleman. We believe he has rightly chosen the field of business for his life's work.

GEORGE BUMGARDNER

Huntingdon, Pa.

George is one of the Huntingdon lads who believes in working hard. He was an A-student last year. George plans to go to the University of Pittsburg to study medicine next year. With his preparation and ability he should soon be a practicing doctor. At present, Bummy is serving as a lab assistant in the Biology Department.

Junior

ANNA MIRIAM EBERLY

Ephrata, Pa.

All honor to the Alcove librarian, a modest maiden, who emigrated from E-town after two years, in favor of Juniata. Anne's musical ability rated her a place in the A Cappella Choir the first year. As a reminder of her Ephrata background, we have "Please pass the noetz, girls!" Her room is a center of disturbance on 4th Brumbaugh . . . at least we think so!

JOHN FIKE

Somerset, Pa.

Here is the tall man of the campus, and also the postman. John is a bass in the A Cappella Choir. He has a very rich voice, and well holds his position on that body. He takes part in all campus activities. There are two things he is always waiting for—graduation day so he can enter the business world, and—June!

GEORGE FITCH

Utahville, Pa.

George is another of our Pre-med students, and a good one too. He has been taking all the sciences that they could possibly give him. He is one of the well dressed boys of the campus and he has a purpose behind this, also. He is active in Intramurals and was a member of the championship Junior Volley Ball team. George is a barber and we believe he has well chosen his mate here at school, for well do "Shoemakers" and barbers run together!

CHARLES LYNN FLANAGAN

Coalport, Pa.

Lynn has become an integral part of the J. C. family, and an indispensable man in the outfield, when it comes to playing baseball in the spring. We all know Lynn for his wit, friendliness, humor and stories, and is the inventor of practically all the uproars of laughter on the campus. Of course, this handsome young man can "be had," but to the chagrin of the campus girls. Flan has been captivated by a brunette from downtown!

Class

ROBERT FLEMING

McClure, Pa.

Flaming, red hair, with a temper to match when roused. An athlete who gives his best, and keeps training the year round. He was really missed this year on the gridiron, because of an injured shoulder. A fellow who is friendly to all, and who himself, has just as many friends. These are our tributes to Bob. He is quiet and good-natured. His appreciation of the other fellows' feelings has made him a well-liked council member.

KARL FRIEND

Huntingdon, Pa.

Here is J. C.'s burly tackle, but more will be said about that later. Without his glasses Friend sees "dots," and for a while he saw one even with his glasses on. However, after a few trips to the hospital, he was cured of this defect! The mysterious thing is how he has gained fifteen pounds since football season, even though he loses a lot of sleep. You probably have become acquainted with him through his efforts to sell this book. He is a good salesman, so girls beware!

J. STANTON FUNK

Huntingdon, Pa.

At times you would scarcely think that Jack is Rev. Funk's son, but he is always an upholder of justice and right. On the forensic platform he has made himself known as a good debater. His wit, quick thinking, and tricky questions make a debate interesting for the audience, and hard for his opponents. Jack is another lad who thinks Johnstown is a wonderful city, even though it is always smoky and in confusion. Give me Johnstown or give me death! Say, mister, what do you think of Socialism?

EDWIN FLEGAL

Clearfield, Pa.

Ed, in his first year, paced his way to fame on the track doing the mile. He is now one of our strong hopes for breaking the existing record for this distance. For two years Ed was a downtown man, but now he has turned his attention to the school girls, and many, although of short duration, have been among his conquests. Has he really found the girl of his dreams? What do you say Ed? Let's see you crack that mile this year!

Junior

JOSEPHINE GALBRAITH

Huntingdon, Pa.

Jo, to some; little Jo, to others but Joby to those who know her best. Joby has a child-like naivety, candid straight-forwardness and a love for good sportsmanship which makes her a thoroughly delightful companion anywhere, anytime. Does she have a wicked right to the stomach? Just find the man who can take it. She excels in all sports; substitutes in the Huntingdon grade schools as teacher and loves "Clark" bars and penny licorice.

ELWOOD GARNER

Huntingdon, Pa.

Trumpeter, what are you sounding out? Yes, he plays the trumpet in the orchestra. When spring rolls around, he is a track man, and is always doing his best there. We must not forget about his standing as a chem student. He really is a top rung chemist. Garner is now well on his way in his pre-medical course. Since he does not live on the campus, we are not sure of his social activities, but it is said that he does not fear the girls!

JANE GEHRETT

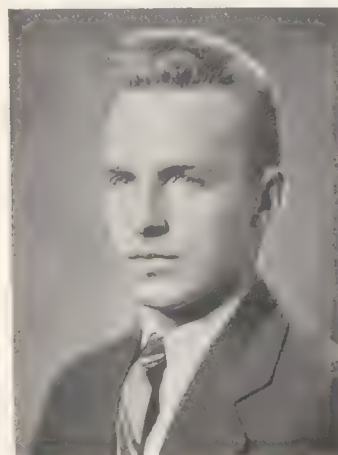

Huntingdon, Pa.

Jane is usually found in the labs, diligently experimenting to determine the nature and reactions of elements and chemicals. We can only say that she is as good as the best of the chemists in school. Then we see her in an entirely different attire, attending the social functions of the campus. On the Alfarata staff, Jane is one of the student editors, and has done her work well in writing up all the Day Student girls.

DAVID GIPPLE

Huntingdon, Pa.

This year Dave worked his way up to second string center in football. Although he is small in size, he makes up for it with his courage and pluck. Dave was quite a light in campus affairs for a time, the social ones of course, but now we do not see him so much. He must have interests elsewhere. He is studying business and teaching. With another year at Juniata, Davie ought to be well prepared for combats with the busy world.

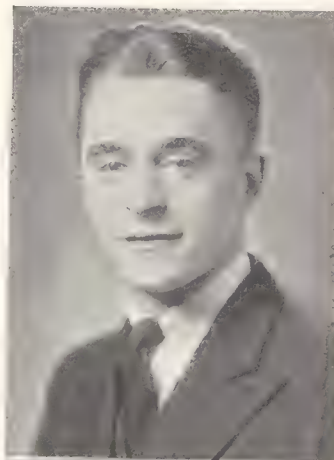

Class

HAROLD GREEN

Boonsboro, Md.

From Boonsboro came this blond lad with the aim to become well educated. He not only aimed high but has achieved his goal. He is prominent in campus affairs and does his part in all activities. His fine work on the Juniata recently merited him a promotion to News Editor. For a hobby Harold likes to dig up old musty volumes in the library and try to trace their history.

MAUD ELEANOR GREENWOOD

Glen Head, N. Y.

Mannish stride; pepsodent smile; slick coiffure; the lady from "Noo Yawk;" Dagmar Beck's Boswell; practical joker; athletic Amazon (despite fouls); mathematics shark; biology expert; in spite of seeming boisterousness, gentle as a lamb. Greenwood calls down to 2nd Oneida, "Hey, Rebah!" and up to 4th Brumbaugh, "Hey, Ebahly!"

GALEN HALL

Huntingdon, Pa.

Hail, the diminutive guard and captain-elect in football. We admire Galen's courage, determination, and grit . . . we prize his fellowship. Hall is scientifically inclined and intends to become a teacher in due time. He has two major weaknesses, one is good looking girls, but to mention the other would be giving him a "raw" deal. However, we are looking forward to a winning Tribe next year under his leadership.

FRANK GIVEN

Steelton, Pa.

Rats is the boy from down Harrisburg-way, who has literally burned up athletics at J. C. This seasoned warrior has given his best in many of the contests, and they are truly many, that he has entered. He has called signals, tipped the ball off at center, and made timely hits in baseball. He has been one of Coach Swartz's biggest "guns." Out of athletics, Rats is just as good a sport, and for this reason he has many friends.

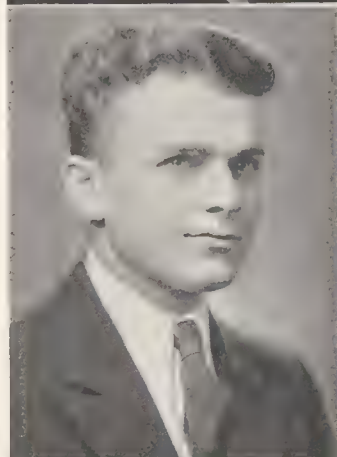

Junior

HELEN HESS

Hollidaysburg, Pa.

Helen certainly exudes cheerfulness. Even if you don't know her, you'll wonder to whom that smiling, cheerful face belongs. Helen is quite the athletic miss, in hockey, volleyball, basketball, or what have you; she is always right in there making her presence valuable for her side. Helen tried living in the dormitory for awhile, but now she has graduated to the ranks of commuters, and adds much to the good humor of the girls' day student room. May you go smilingly thru life.

FREDRICK HOLLINGSHEAD

Saxton, Pa.

Fred is gradually becoming like the man after whom he was named . . . that is groze. Fred is a Juniata true and loyal. He is interested in his studies, mission work and anything pertaining to religion. Of course, like all young men, he has his weak moment, too, at which times he falls under the influence of a certain young girl from Hollidaysburg.

HELEN HOOLEY

Richboro, Pa.

Penetrating blue eyes that discern what is hidden beneath the surface—eyes that speak despair, devotion, and desire. Skips. Souvenirs. Radios. Boys. Then there are those musical instruments that distress 2nd Oneida, but which demand Helen's attention. "Mom's" efficiency and speed, have caused her popularity as the athletes' waitress. Two things we'd like to know is she contrapuntally minded?—is she still vacillating?

DONALD HUDSON

Altoona, Pa.

Another Beau Brummel . . . our Don. Each day he comes from Altoona to unearth more knowledge. As a debater he has proved his worth and we believe he should prepare for the legal profession. Don has a very pleasant voice, which we have discovered is very good for recording. In the chapel choir, we hear him hitting the low notes. Above all, Don is a real pal, and a worthy friend to anyone.

Class

PAULINE KAUFFMAN

Waynesboro, Pa.

Basketball . . . memories of E-town, Lebanon Valley, Drexel . . . the suitcase that fell off . . . the bum knee . . . pretty shots . . . funny caps . . . clever signs . . . decorations and what not . . . the art work of this book . . . all are the handiwork of Polly. And then when it comes to other activities she's right there . . . debating, and even a little of the social side of J. C. life. Polly is one good sport in everything. Even the renowned council and those that have memories of it. Waynesboro still holds first place in this maiden's heart vacations; mean nothing sad to her.

JOHN KAUFMAN

Boswell, Pa.

The poor boys of Founders had a "fine time" living with John while he was practicing his singing. But now, having had a good music course and some voice culture, he has developed into a well liked baritone. John is majoring in sciences . . . but in his leisure time becomes very unscientific, especially in the evening when he studies astronomy with one of his girl friends. Though, not a perfect "social lion," he is doing a very nice job. What do you say John?

MARY E. KEITH

Altoona, Pa.

"Oh, Denton, will you get me some bobby-pins while you're down town? asks the possessor of these pretty blonde curls in a decidedly musical voice. He does, of course, for who could refuse Mary anything? One of the most even-tempered and lovable persons on the campus, Mary takes time off from the demands of a music course to make and keep a host of friends, and to lend her welcome presence to various activities. Likes baby-dolls, apples, and sleeping late. Dislikes—nothing and no one, so far as we can discover.

LYNETTE HUNTER

Spring City, Pa.

"He who lies down with dogs gets up with fleas." What? Nettie going hunting? No. Guess again. Nettie philosophizing? Wrong again. Ah, we have it . . . Nettie studying American Lit. Was there ever a girl who took tests as seriously as Nettie does, carrying books to the table, feeding on literature? The gods dropped a small but mighty packet on Brumbaugh Hall this year with little Miss Hunter, whose curling tresses and smiling face conceal most of that fiery temper, which pops out now and then. Blessings on a sincere Christian, Bible student, and Sunday School teacher.

Junior

BERTHA KEPHART

Osceola Mills, Pa.

You've heard of David and Jonathan? Well, here's a modern version in Grace and Bertha. Falsely accuse a friend, and Bertha's indignation will put you in your place. Ask for seconds in the dining hall, and her smiling countenance lights up with, "I'll try." One of Mrs. Baldwin's favorite's, Bertha is quiet, dependable, and accommodating. And did you say school teacher or housewife?

MARIAN KRICK

McClure, Pa.

This young girl was the most popular girl in her high school class, and we are of the belief that she has done as fine a job here at Juniata. She is a very good basketball player and one of the intra-mural stars. She now stays at Professor Yoder's home, and is known to be a very dependable worker, both in school and at the Professor's. Her work is along the home economics line and she should make good, considering all these good qualities.

GEORGE KURTZ

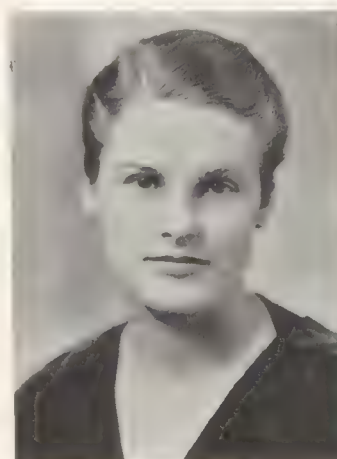

Huntingdon, Pa.

Here is a versatile young man from Huntingdon. His line of interest is divided into two branches, languages and girls. He is a well dressed lad, and tops this off with an excellent use of language and conversation. George is an active social worker and club member. Yes, he even writes skits, such as the one the Junior class presented at the Hallowe'en party.

RUTH LEWIS

Greenfield, N. J.

Perched high on a window sill overlooking North Campus . . . looking slightly to the East . . . listening for a cheery whistle . . . yes, he's coming. Ruth's wide awake when it comes to all sports, loves to trot around on the hockey field, or watch the other heroes of Juniata sports. She has an interest in the glee club . . . a certain curly-headed youngster who can play the piano and croon. She has such a merry little giggle that you can't help but giggle too, or sit and chat. Carefree and sunny. Likes to hike or swim. Can cook and sew. An all-around J. C. co-ed.

Class

MARGARET LONG

Altoona, Pa.

Joining the J. C. family just this year, Margaret has certainly become one of the group. We don't know what she might have missed by not coming here in the first place but we know we missed a lot by not knowing her. That is why she is so popular on the campus and especially in the day student room. We are surely glad she is here to stay.

CHARLES B. McCLAIN

Mount Union, Pa.

Bernard is much interested in science. From dissecting cats to mixing chemicals, we find him working in the laboratories. And by the way, he is making high marks in all his courses. In a sputtering Whippet coupe, he drives to and from school . . . too bad a scientist must drive such a car. We all like Mac's jokes and good humor. He is a pal and a friend worth having.

MARY McCREARY

Port Royal, Pa.

"Mac" is one of the fun-lovingest people we know, and is always in a good humor. Who wouldn't be in a good humor, if, after being out of school for six weeks, one came back and made the best marks of one's college career? Mary is liked equally well by both men and women, especially a certain freshman —. She is majoring in music, but have you ever heard her play a trumpet? We're wondering what Gabriel would say!

DOROTHY LINGENFELTER

Altoona, Pa.

Black curly hair and snappy black eyes that could belong to Dot and only Dot, our commerce and finance student. Do you hear a half-whispered yarn followed by a husky laugh? It's Dot entertaining her right hand man at the table. It takes a girl like Lingy to settle the frosh. She roomed with one last year, and worked faithfully on the Court this year. Everyone likes Dot, for she's a good sport and is always ready for fun.

Junior

MELVIN MCCREARY

Port Royal, Pa.

Every morning Mac boards a train at Port Royal and after a long ride he reaches Huntingdon and J. C. After his day's work is done he must ride home again. So you see he is "riding the rails." When does he study? We have come to the conclusion it is while he is riding, for his excellent work gives evidence of much preparation. Mac has become one of the best chemists in our class.

EDNA MCELWAIN

Huntingdon, Pa.

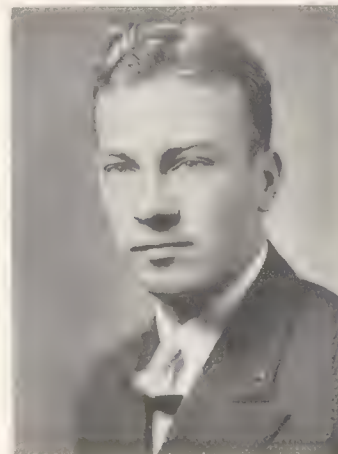

There are only a few people who can mix religious activities and school work, but Edna is one of them. If you have ever been in a class with Edna you will know, here is one girl who always knows her lesson. Edna likes outdoor life, especially hiking, preferring to walk to school from downtown to accepting a ride. She is also an excellent ping-pong player, as a lot of vanquished day students well know.

ALBERT MANN

Altoona, Pa.

Here is another lad, who in search of higher learning, felt it his duty to commute to the Little College on the hill, there to partake of knowledge in immeasurable quantities. And this he has done. Albert is a quiet, studious fellow, with whom we would gladly become better acquainted. We feel sure he would make a place in our campus life; however, there may be reasons in Altoona for his commuting.

JACOB MATLACK

Altoona, Pa.

Last year Babe transferred from Susquehanna to finish his education at Juniata. He stepped into the athletic life of the college and demonstrated some of the classiest basketball that has ever been played here. This year, he has not only been a valuable player in this sport, but also played a good game at the end position in football. We all like his friendliness, and enjoy his companionship. How about that nice grin, Babe?

Class

AMY MILLER

Tyrone, Pa.

When Amy was asked what she wanted said about her in this write-up she said with characteristic modesty: "Oh! But there is nothing to say about me." Nothing to say except that she is everyone's friend. Her ready words of comfort, cheer and livable and useful philosophy makes her beloved of many a day student girl. And now Amy "nothing to say?"

PHYLLIS EUGEN MILLER

Petersburg, Pa.

How often have you heard someone say "Good-hearted Phil?" If you haven't heard that, or even said it, you don't know Phil. She has changed her mind about her course so often that we sometimes wonder just where her interests are. Music, arts, education, or men. That is one reason for her popularity everywhere. Her distinctive laughter and good cheer in the day student room has cured many attacks of the blues. Hers is an enviable history.

FRANKLIN MILLER

Altoona, Pa.

This tall, blond young fellow is very little known to most of us for two reasons: He transferred to J. C. this year, and he is a quiet fellow, who goes about his work with but a studious outlook. From several of his friends, we have learned that his aim is a high one, one that he expects will end in high-education teaching. Here is a lot of luck to you, Franklin. We are glad to have you here at Juniata.

WOODROW MIDDLEKAUFF

Hagerstown, Md.

Woody came to Juniata from the fair state of Maryland. Since then he has become a lab assistant in Biology. He has two hobbies, one is chasing butterflies and the other is stealing hearts. He has, we believe, a major in both these fields. Woody is a likeable chap and has many friends.

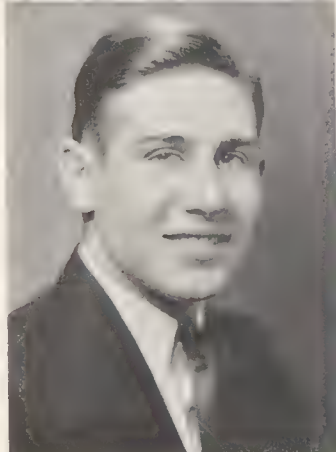

Junior

JACK NICHOLSON

Barnsboro, Pa.

Here is the one man contingent from Barnsboro. The injury to his foot kept him out of football this year, and we missed his stellar playing at the end position. We expect to see him do his part in helping us to win another baseball championship this spring. Jack is a good sport; his broad grin and hearty laugh show his good nature which he sometimes covers up with a stern look. Jack was very active this year in the intra-mural basketball games. He put into these games just that which they needed, and we will never forget the game when he turned the tide by sinking a shot in the wrong basket.

ALBERT RAMER

Altoona, Pa.

Al is one of our best athletes. His Apollo-like physique, grace of movement, form, and fine sportsmanship are admired by all. This year he earned his letter in football, and expect much from him next year. He is a basketeer and track man, as well. He is responsible for the athletic writeups, in this book, which he has tried to make interesting for the readers of the Alfarata. Do you wonder that he could "Harley" evade the fairer sex?

MILDRED REIGH

Bellwood, Pa.

Math? No, Mid. They are one and the same thing anyway. What isn't mathematics is French or Latin for Mildred. She sails right through everything—well, nearly everything. But then think of the inspiration. Isn't it Elmer or—well, it sounds something like that. Oh yes, we nearly forgot the orchestra. It seems that Mid practices every Saturday night. For the orchestra? Who knows? Altogether Mid is the all-around day student.

KATHRYN RHOADS

Torrance, Pa.

Tall and fair, lovable as well as loving, Kay is a charming and delightful friend. Always in for fun and a good time . . . a ready listener and sympathizer . . . loves to listen to the radio . . . in for a feed . . . fond of candy and peanuts . . . a familiar figure at a certain campus rendezvous in the evening after the lib closes . . . likes to stroll around J. C. haunts . . . and every once in a while goes for a long hike. Kay is good at cooking and sewing, knitting, or doing reed work—regularly domestic when it comes to that. Another home ec lass who'll gladden some man's heart, for the way to a man's heart is—oh, well.

Class

PAUL ROBINSON

Johnstown, Pa.

News Editor on the Juniata Staff, one of the leading debaters, religious worker, all these and more are combined in this young man. All who know Paul, like his friendly attitude, and his ready willingness to aid others. He has helped in all campus activities. "Howe" are things in Johnstown, Paul? Yes sir, Paul sure knows "Howe!"

ELIZABETH ROGERS

Huntingdon, Pa.

This quiet miss comes driving from downtown every morning. Few of us know her well but we all wish to know her better. This year it is with pleasure we see more of Betty around the campus. Betty is tall and queenly with a poise which we all envy. Did you ever ask Betty about "Baumie"? She bushes very prettily. A true lover of books, Betty serves us all in the library.

ELEANOR ROHRBAUGH

Hanover, Pa.

"The longer they keep coming the better we find them" must be true of the Rohrbaughs, for El surely would be hard to beat. She's a cross between a boarding student and a day student, spending most of her spare moments at Jack and Betty's. Who makes the Y. W.'s posters? Who is always ready to entertain with a reading? Who is ever faithful to the Juniata? You have it . . . Eleanor, one of J. C.'s treasures.

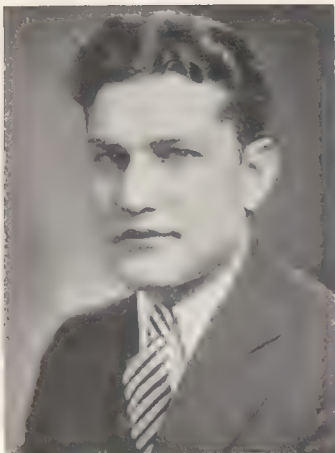

MARY MARGARET ROBINSON

Port Royal, Pa.

Mary Margaret is one of the college blondes . . . there is every evidence that a certain person seems to favor blondes. The Venus of the campus. Peg's life is an even-balanced one, for she never seems to have any cares. As a friend she is willing to do you a favor at any time. Another case of the triumph of Altoona. Memories of weekends . . . the clothes line . . . plays . . . hunting flowers for summer with snow on the ground . . . fudge making . . . parties in the old home town . . . all these and more are J. C. recollections. A friend worth cherishing and keeping near when it's raining or sunny, to hike with, to play games with, to study with, or to talk with . . . ask John.

Junior

JOHN RUDOLPH

Colver, Pa.

He is one of the good looking men on the campus, and also one of the best dressed. He is a member of the Stoyka, Alcorn, Rudolph Trio, whose activities we will not discuss. John did some nice work in football this year, and next year we hope to see him a regular. Although he has transferred to J. C., he has made many friends, which is a good policy for a future business man.

VIRGINIA RYMER

Huntingdon, Pa.

Roses and cream, O that complexion! We don't know what kind of soap she uses, but it sure is effective. Virginia is so quiet that few of us get to know her well, but when we see her with her friends, we feel we're really missing something in not knowing her better. Virginia, like her very talented sister is a musical miss. She goes in for music in a big way, for it is on the cello she excels. But have you ever seen this fair miss swim? Believe it or not, she is one smooth mermaid in the water.

ELWOOD B. SHADE

Hollidaysburg, Pa.

Here is a young man who came to Juniata with one idea in mind . . . that was to work for a degree. Unwaveringly, he has striven towards that goal, day after day, week after week, for three years. Shade is a quiet, unassuming, studious fellow. He is majoring in the science curricula, especially in Biology. We wish he was a boarding student, so we could get better acquainted with him.

GEORGE SHINGLER

Huntingdon, Pa.

George is another of Juniata's football men, who has made good on the gridiron. His flashy, speedy end-runs have thrilled us all. He has also been one the track team, and this year we expect to see him on the baseball diamond. His friendliness and ready smile have won many friends. George is also a politician, a Republican perhaps, because he is our ex-president of our class . . . and you must be a Democrat to hold office now!

Class

MELVIN SIMPSON

Altoona, Pa.

Simp is a very versatile young man, not only in his activities but in choosing the curriculum. He has decided, finally, to take up accounting. Although he is always telling someone what to do, we like him just the same. He has had quite a number of escapades, but this year he had to take care of Jess, and couldn't do much for himself. Simp tells us that he is going to State next year, which will mean another loss for us.

IDA SMITH

Shermansdale, Pa.

Judging from the gift of gab . . . we've come to the conclusion that Smitty is related to our good friend Mr. Smith, the voice specialist and phonograph salesman, except that when Smitty talks, she says things. She has a philosophy of life all her own, and is prepared to take hard knocks, but hard knocks have a way of passing Smitty by, and following one who k . . . k . . . can't take it. Oh, my-dear, we almost forgot the interest at J. C.

CLIFFORD SPANGLER

Carlisle, Pa.

Three years ago Cliff came to Juniata as a bashful young boy and was very self-conscious. Now, due to his many associations he has become one of the popular men of the campus. Of course you all know about his car, and his many escapades, and his affairs with Dr. Shoenthal! As this book goes to press we have learned that Cliff has gone through a very serious operation. The staff and his friends join in hoping for his early recovery to perfect health.

ELEANOR SHOEMAKER

Hollidaysburg, Pa.

Up slides a 2nd Oneida window when a familiar whistle sounds below. "Where's my coat?" and the door slams. Yes, he has curly brown hair—that farmer's son. Mischief sparkles in her brown eyes. Shoey is in for fun whether it's hiking or sledding, bus riding or walking, playing pranks or leading a "gang" session. You can scarcely name a place where Shoey has not been, from sunny Hawaii to Oklahoma and around again. Juniata always calls her back although school usually starts before she arrives. Knitting sweaters is her hobby. Will a certain Founders' lad ever wear one?

Junior

RAY SPEICHER

Somerset, Pa.

Tell Ray a funny joke and he will laugh, wave his arms, get red in the face, and then laugh some more. Ray is a good-natured fellow. He is interested in sciences and is on his way to become a teacher of this field. Next year he will be our basketball manager, having served efficiently this year. Recently he has become a ladies' man. Think you will Speich-er, Ray?

ANN PAULINE STONER

Waynesboro, Pa.

This auburn-haired, brown-eyed miss has brought many folks great misfortune—the misfortune of not knowing her, a calamity caused by Polly's retiring, studious nature. Her sincere friendliness and sweet temperament are proclaimed by those who enjoy the privilege of her acquaintance. Greenwood claims, after three years of experience, that she is the peerless roommate.

VIRGINIA SUNDERLAND

Altoona, Pa.

"Jenner's" always having a good time and you just can't help joining. Popular and deservedly so, such a good-natured, happy-go-lucky person just couldn't help but be one of the most popular persons on the campus. For a year and a half, Jenner lived in the dorm, now that she's living in town we certainly miss seeing her around. May Jenner never lose her smile and her cheerful influence on us all.

PAULINE SWIGART

Huntingdon, Pa.

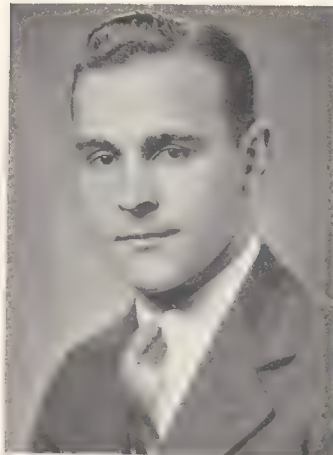

Petite and beautiful, what a combination and in Polly, well, the rest of us suffer from comparison. 35's best bet for May queen! But Polly doesn't stop at just being beautiful, she is really a student and a good one at that. This is certainly an unusual combination but "our Polly" is individual. Alas, Polly's eyes turn to Phillie even with the best we have to offer. Polly—as a librarian we wish you best of luck.

Class

MELVIN WENGER

Ephrata, Pa.

Mel soon proved his worth at J. C. on the football field, basketball court, and tennis court. This year he has occupied a permanent berth in athletics which he, and he alone, can fill. Mel started out in the field of science, but has now undertaken the C. and F. course to prepare for a position in a bank when he graduates. We like his good nature, clean friendship, and sportsmanship. We are proud of this warrior.

MARY ELIZABETH WERTZ

Johnstown, Pa.

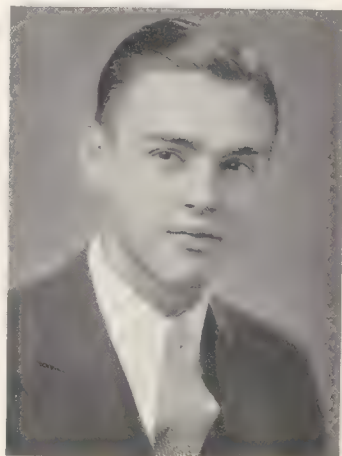

ME—diminutive as her nickname. The student librarian who keeps the Y. W. C. A. treasury's books in equilibrium, accompanies any soloists who frequent the studio, and is a religious attender of breakfast and morning devotions. A giggle . . . ! Call on her when feeling blue and be cheered up. Quotes French proverbs on occasion. And does she know mythology? Well, if she doesn't—she should.

HERBERT WHITTAKER

Huntingdon, Pa.

Herby is one of the most courageous boys in the Junior class. Due to an injury in football he has been handicapped physically, but that has not stopped him. Diligently, earnestly, steadily, he has been preparing himself for the world of business. We hope he will be able to complete his work with us for we are proud to have him in our class.

JESSE WALTERS

Claysburg, Pa.

Peck's bad boy he has been called by some. But recently, Jess has become a changed young man. Last year Jess decided to become a teacher in the elementary grades and therefore changed his curricula. Now he has become thoroughly prepared to teach. We wish to congratulate him on his recent appointment to teach in the elementary schools of Claysburg. We wish you success, Jess.

Junior

ELIZABETH WILSON

Beccaria, Pa.

Athletic in every sense of the word. Lightning on the basketball floor. A capable director of one-act plays. Speech major—probably accounts for her ready flow of conversation. Quick wit. Delightful giggle. Let her hair grow to please—oh, you guess it! Collected a Bill last year. Interests since include music and poetry. Outward frivolity conceals intelligence and sincere nature. Thinks twins constitute the ideal American family. Can be counted on in an emergency. A real pal.

FLOY MAY WRIGHT

Columbia, Pa.

"Let's keep the conversation cultured," ejaculates Floy, the petite orator with ideas more or less Agreeably Dissonant with the editor as to just how the Juniata should be run. Thanks to her as finance chairman, the Y. W. treasury doubled itself this year. Having sung at the Salvation Army, at Student recitals, and over the radio, Floy is already achieving her ambition a second Dame Melba. Perfection and precision personified; motto---nothing to excess.

ALVIN WRIGHT

Trenton, N. J.

This handsome young man is the other half of the Wright-Reid combination. He has already had experience in school, being a registered pharmacist. Not being content with pharmacy, Al has set his goal higher and is now headed towards the medical field. We like his sincerity, his true Juniata spirit, and his sense of responsibility. He is a good student whom we were proud to welcome into our class.

SOPHOMORE CLASS

To offset the exodus which took place on the campus of Juniata in the spring of 1932 and left the College with about one hundred less students, one hundred and fifty new seekers of knowledge enrolled in the Fall of that year and represented, in the history of Juniata, the class of 1936.

It was not long in the year until they participated in the college activities, directing their talents into the fields of athletics, music, dramatics, and scholastics.

This class was the first to come to Juniata under the non-reg regime, but its members have expressed their opinions to the fact that they really have missed something in their college life. They are looking forward to the day when these regs will be reinstated.

FRESHMAN CLASS

No green bands and green trimmed dinks for this class. These boys and girls were largely liberated from the bonds of freshmen law. To believe that "regs" have their virtue, is hard to see when this class at the end of its first year possesses an attitude which permeates the whole campus.

On the contrary, at times the situation was most discouraging when defeat was ministered in many intra-class competitions. However, this was sure to develop a fine type of class patriotism. This class did not have such a world of athletic aspirants as had the former freshmen classes. Their freshmen basketball team, however, did improve as it went along.

Soon after the class was organized it held several socials which were innovations for the freshmen class.

THE ALTOONA CENTER

As an outcome of the extension work in Altoona, and to give college opportunities to Freshmen, the Altoona Center was opened under the directorship of Dr. Fayette McKenzie, last September.

This center had been considered for several years, and is now operated in the Senior High School with the cooperation of the Board of Education and Superintendent of schools. Their intentions were to make it feasible for students in Altoona, and adjacent towns, to get their first year of college at the lowest possible cost.

Classes meet chiefly in afternoon and evening sessions from four to seven and from seven to ten. An able body of teachers include professors from the Huntingdon College campus and several local instructors.

In addition to the Freshman class which is Altoona Center proper, a number of extension courses are carried out. There are approximately fifty extension students besides the sixty-eight Freshmen. Several of the latter group transferred to the local campus at semesters, and a goodly number will come next September.

During the spring, the Freshmen undertook to develop high ideals by accepting a modified form of the Athenian pledge of citizenship as a sign of devotion to college, honor, and integrity.

Altoona resident professors and assistants are: Professors Lithgow, Bordman, Kline, Conrad, and Wimmer.

POW-WOWS OF JUNIATA

WOMEN'S STUDENT COUNCIL

Feminine administration in the Student Government Association is vested in the Women's Student Council, representing the women of the college by election from the various classes. There are five seniors, three juniors, two sophomores, and one freshman in its governing board.

This organization, having its beginning in 1922, has in the past years, tried to live up to the high ideals set by the college. It has tried to be constructive, to bring about better social conditions, and to help the students with their problems. This body has the support of the entire faculty and student body.

Semi-formal dinners are sponsored by the joint councils this year. The women also serve a weekly tea in the Blue Room.

MEN'S TRIBUNAL

The Men's Tribunal is that high and mighty body of five seniors and four juniors which has the task of keeping freshmen within the bounds of propriety and gentlemanly conduct and in the straight, if not narrow, path of "J" book rules.

This body tried to inspire awe and fear in the embryonic freshmen, but due to the removal of the penalty power of this body, it was rather an example of a hand-tied government. On Homecoming Day, the freshmen were left free and humbled disgrace upon the upper classmen. Although the body is not popular with the aspiring proteges, the absence of its former power will be realized as an important factor in college life.

JUNIOR - SENIOR COURT

The Junior-Senior Court comprised of seven upper-class women functions as a secondary governing body over the freshmen. It did not function this year as traditionally, due to a considerable change in freshmen regulations. First semester the court kept the girls in constant attention to the "J" book rules.

Because penalties were less severe than heretofore the frosh were considerably freer. As a result they sometimes stepped beyond their limitations. However this executive body worked very efficiently.

THE ALFARATA

THE JUNIATA COLLEGE YEAR BOOK

Published annually by
THE JUNIOR CLASS

The sixteenth Alfarata is edited by appointed members of the class of 1935. The staff has tried hard to present the various sides of campus life through which undergraduate days are remembered. Since it is in a way a history, the majority of the pages are filled with personalities who have taken part in the activities of the past year.

The sole aim of this publication has been to record campus events and student activities. The success of this book is yet to be measured. There will be errors, there will be mistakes, and there will, not doubt, be many hard feelings, but this is the same expectation of all producers of such publications.

The producers have endeavored to bring forth the Juniata back-ground—that of the Indian and his Pow-wows—the Teepees and the Totem Poles—and the Warriors on their Happy Hunting Grounds.

JUNIATIAN

The Juniatian is the four-page college weekly in which the student editorial and reportorial staff publish the news of campus functions, tell of coming events, and attempt to mold student opinion, and to foster worthwhile and needed projects.

An interesting personal element and touch is provided by feature articles, and by those attractive columns, "Sillyettes and Sillygisms," and "Tomahawk." In "The Council Fire," students, faculty members, and friends express their opinions and hopes. The Sports Editor usually has his column to express his sporting slants. "The Poet's Corner," and the "Book Review," attract the attention of many.

The Editor-in-chief, managing editor, contributing editor, and five news editors compose the editorial staff. The selection is made on the basis of service, ability and interest.

The Juniatian is a member of the Intercollegiate News Association, which has been organized to enable college journalists to exchange their ideas and make their findings known. A more varied and interesting newspaper is possible through this organization's efforts.

BETA TAU KAPPA

Beta Tau Kappa is an organization to promote co-ordination between yearbook staffs of the past, present and future.

Professor Harold Engle is the administration representative, who offers advice to the editors and business managers. The heads of last year's Alfarata contribute suggestions that prevent the repetition of errors in this annual. Beta Tau Kappa makes it possible for an attainment of a higher criteria for the future yearbooks—the Alfaratas.

ALPHA CLUB

The Alpha Club experienced a renovation of spirit and began its season by an initiation of nearly thirty neophytes. The lively meetings that followed, included track meets, games, socials, and a Saint Patrick's Day Party.

The formal event of the year was the Alpha banquet, held in the college dining room, with the entire club and faculty advisors attending. At the close of the dinner an entertainment program was presented. The Alphians participated in the first All Club Night entertainment. They offered an original negro song-and-dance sketch.

TAPITAWE TRIBE

The Tapitawe Tribe, its name taken from the Delaware Indians, and its members from the three upper classes, is one of the liveliest social clubs on the campus.

New members are added at the beginning of the first semester, a process which includes an ingenious initiation. There is an active membership of forty.

The meetings are spent in playing games, which range from the quiet paper and pencil variety to more active amusements.

SIGMA DELTA CLUB

Sigma Delta is recognized as a most outstanding and progressive social club.

Friday night, meetings are enjoyed by a capacity membership whose whole-hearted interest and cooperation are responsible for the fine spirit and social life the club has shown. During the year the varied programs have been especially entertaining and unique. Such high-spots as, moon-lit hikes, initiation night, and a minstrel show by the fellows did afford real pleasure.

With a true sense of duty Sigma Delta is contributing to the social life of Juniata.

FRESHMAN CLUB

"In unity there is strength"—the ancient adage was proved again in the organization of the Freshman Club. The Frosh, though lacking in numbers this year, due to the "other half" at the Altoona Center, made up for its scarcity on the Campus in its spirit and go-get-iveness. Among its many achievements was the chagrin of the Sophs on Homecoming Day.

The Frosh enjoyed several well-arranged social affairs as a club, and at semester time blossomed out into a fully organized class. Two entertaining stunts were given at College functions. The group was outstanding in its cooperation and spirit, and gave promise of contributing new ideas and talent to the life of the College.

HOME ECONOMICS CLUB

The home economic students are organized into a social and professional club. They socialize at parties—masquerade and Christmas—and at steak fries. In the spring the Junior girls serve a formal dinner to honor the Seniors of the club.

Professionally, the girls render themselves serviceable to the entire student body by serving teas, costuming for the May Day Festival, presenting illustrated lectures, and showing slides on milk, cereals, sugars, and other related phases of the home economics work.

For presenting the most original and unique stunt this year—a kitchenette orchestra—the club is the recipient of the first silver loving cup awarded at the All Club Night of competitive stunts.

ARTS CLUB

Unique in the fact that it has neither a constitution, nor a limited membership, the Arts Club enjoys a great variety in its program and meetings.

During the past year the music, architecture, sculpture, and painting of the ancient, medieval, and modern periods have been studied. In light of the fact, that faculty members usually give this material, it frequently happens that the students themselves present the material. The library, all through the year, has been a great factor in the collection of prints.

Poetry and music are usually outstanding in its programs. At some of the meetings, open discussions have been enjoyed. Frequently, the meetings are enlightened by musical compositions of the members of the club.

THE LIBRARY GROUP

The Juniata College library, which is in charge of Miss Lillian Evans and her assistant, Miss Lillian Harbaugh, has a staff of seventeen student assistants.

Once a week staff meetings are held at which the work of the library is discussed, reference books studied, and recent books reviewed. Annually, the staff has a social get-together, and this year, a Christmas party was held in the library.

About four hundred and twenty-five students use the library for reference and recreational reading. This means that the staff is kept busy doing reference work, and seeing that the wealth of material . . . books, magazines, pamphlets, and government documents, is available.

Y. M. C. A.

Those men on the campus who acknowledge faith in Jesus Christ, and who seek to lead others to a similar knowledge are the members of the Y. M. C. A. Each man's conduct evidences that Christ is the ruler of his life.

At the weekly devotional meetings Christian leaders frequently address the organization. During this year the Y. M. C. A. has fostered several stag socials, and the annual banquet in honor of the varsity football men.

Creating a "Christ Centered Campus" at Juniata has been under the guidance of the cabinet which has been headed by these officers:

Y. W. C. A.

Being the largest organization at Juniata, the Young Women's Christian Association sponsored several projects during this college year.

Through the "Big and Little Sister Movement" the "Y" came in contact with the frosh, before and immediately after they arrived here. Later in the fall the girls hiked to Flag Pole for breakfast. Near Christmas, charity was extended to the orphans and to the poor in Huntingdon. At the same time, a "Frigid Air" Christmas bazaar was held. Booths, decorations, and the girls' flannel pajamas were all white, with one exception—the northern sunset.

In the spring, May Day and the banquet, were the major events. Morning devotions and Sunday vespers were sources of spiritual inspiration to all of the members.

MINISTERIUM

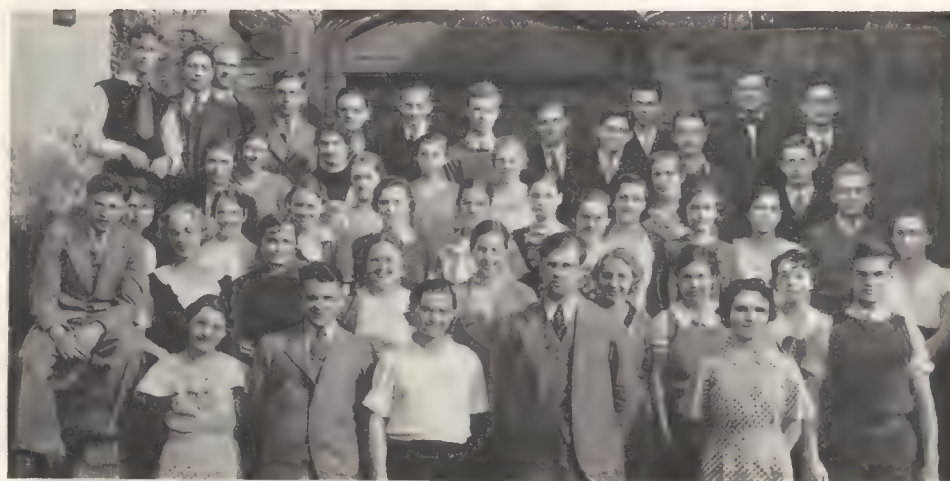

Those men of any denomination and creed who anticipate a life work in the service of Christ are organized into the Ministerium.

Frequently, speakers of note, address these potential preachers, giving to them guidance and help in the calling for which they are preparing. Special services are conducted by members of the group for the Salvation Army, the Payne colored church, the Huntingdon jail, and vacancies in local pulpits.

The purposes of this organization are: to further a spiritual atmosphere on the campus, to aid those who contemplate entering the Christian ministry, and to give its members such experience as will enable them to meet whatever task may confront them in life.

VOLUNTEERS

The Volunteers pledged their lives to Christian service either as foreign or home missionaries or as Christian stewards.

The organization held semi-weekly devotions at which students, and occasionally visiting speakers, were leaders. The theme for this year's work was Foreign Missions based on Matthew 28: 19-20. The Volunteers endeavored to raise nine-hundred dollars toward the support of H. Stover Kulp, a Juniata alumnus and an African missionary, by deputation programs conducted in Brethren Churches and by contributions from students and faculty.

This year the Volunteer Group of Juniata was the hostess to the Annual Eastern Student Volunteers Conference.

MUSIC CLUB

Aspiring musicians from the Music Department sponsor bi-weekly meetings to supplement their knowledge, appreciation, and artistry of music. Their purposes are accomplished by the study of Mozart's *Symphony in G Minor*, Grieg's *Peer Gynt Suite*, by personal contributions of Professors Jones, Gilbert, Lindaman, and Rowland, and by the works of noted composers executed by the talented.

In an effort to encourage musical thought at Juniata, each week a radio schedule is posted on the bulletin board which announces the operatic and symphonic broadcasts. The club maintains an undivided interest and a passion for the art for which it lives.

THE HIKING CLUB

The Hiking Club claims large membership, because its members are for greater enjoyment out of walking.

After hiking three-hundred miles during the college year, the hiker is awarded a J. C. monogram; one who hikes six hundred miles during the year receives an old English J. The three-hundred miles includes, ten-mile hikes; and credit is not given for a hike of less than two miles. Frequently, the members go to Leffard's Beach, Blair Park, the Cliffs, Flagpole Hill, Ardenhein, and Cold Springs. Hiking also gives points toward membership in the Women's "J" Club.

A CAPPELLA CHOIR

Juniata's select singers—the A Cappella Choir—under the direction of Prof. C. L. Rowland have merited much praise for their repertoire of sacred, and secular music, and of the unparalleled oratorio *Messiah* by Handel.

Twice during the second semester, thirty of the members went on extended tours. Concerts were sung by the entire choir in the local city and adjacent towns. From York's broadcast station, WORK, the choir made its debut over the radio.

The itinerary of the vocalists included:

MEN'S DEBATE

The Varsity debaters again emerged successful from a difficult schedule this season. The squad was composed of eight men chosen from numerous candidates by a faculty committee on try-outs.

Two questions were discussed by the debaters this year: Resolved, that the essential features of the N. I. R. A. should be made a permanent policy in the U. S. government; and Resolved, that the extraordinary powers of the President should be made permanent.

The schedule included a fifteen hundred mile trip through Ohio and Indiana on which Juniata met six teams of mid-western colleges and universities. Perhaps the most colorful debate of the year was the annual Albright tussle for the Reading University Club trophy which Juniata won for the third successive year. The debate was held before twelve hundred people in Northeast Junior High School in Reading and was broadcast.

THE MEN'S "J" CLUB

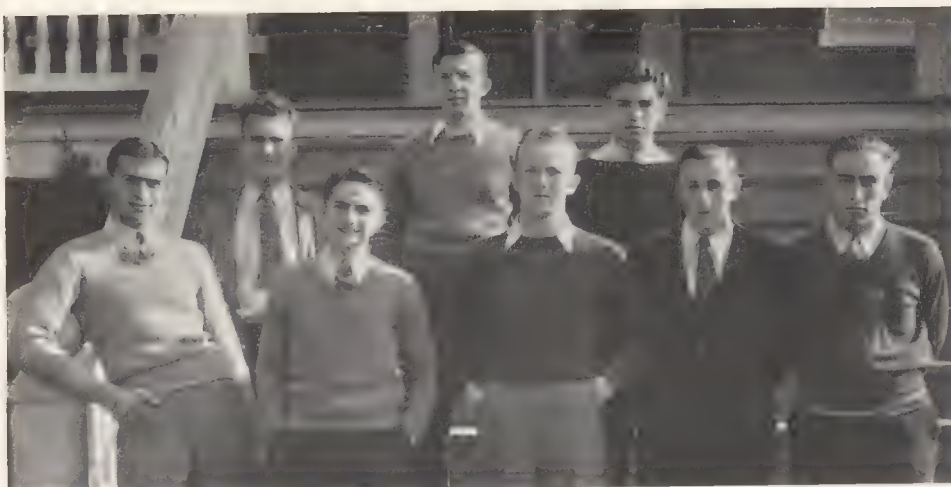

The members of no other organization on the campus have the opportunity to represent their college so widely or so well. On the various athletic teams the men of this club have visited many schools and have met the representatives of other schools at home in the most popular type of intercollegiate competition.

The club is made up of those men who have won their varsity letters by participation in athletics. New members each year voluntarily pass through a strenuous initiation to replace men lost by graduation.

For the home football games a complete program was initiated. The Indian was published and the Annual Football Banquet was held at the Leister House. These and other campus activities have been carried out to further a more thorough appreciation of athletics by the students and faculty.

SENIOR-JUNIOR MANAGERS

This group of men form the organization of Senior-Junior managers of the athletics of the campus.

Whatever may be wrong, these gentlemen receive the blame, but do not seem to mind a bit. They have been tested and promoted from the Gold Key Club as sophomores, and have not been found wanting. Theirs is the silent forgotten labor.

Handling equipment, planning trips, arranging for transportation, meals, hotels, and rubdowns, constitute only a small portion of their duties. Each works hard at his task, and without a doubt, when they have become seniors, have well earned their letters.

MEN'S INTRA-MURALS

The Junior class of 1934 was the shining light of the year's intra-mural program. Although not winners in all branches of competition, the Juniors were never far from the top. In both mushball and touch-ball they finished in second place, and in all other phases of intra-murals they were clearly dominant.

The Juniors decisively defeated the Sophomores in the basketball play-off and their supremacy in volleyball was unquestioned. The inter-class track meet ended in a close finish, but here again the Junior superiority asserted itself and the class of '35 shaded the frosh by a narrow margin to emerge the winner.

INTRA-MURAL MANAGERS COMMITTEE

Managers of intra-murals represent the various classes in arranging and doing the incidental work involved in planning an inter-class program of games of: touch-football, basketball, volley ball, and mush-ball.

The Women's program was sponsored by the Women's "J" Club and directed especially by Pauline Kauffman and Ada Reber, who were appointed by the organization. The second week of school found the girls getting ready for the Homecoming Hockey game. The Sophomores eked out a victory on that day. Then followed soccer and football, and later on in the spring, came volley-ball, track and tennis.

Coordinated with the women's program, the men's intra-murals were begun in basketball and touch football. These games were compiled and executed by Clark, Cressman, and head manager Wareham. After basketball came volley-ball and then tennis, track, and basketball.

These industrious managers are selected by the coaches and senior manager. They make it their business and duty to have some form of athletics for all the students throughout the whole year.

WARRIORS OF JUNIATA

THE ATHLETIC BOARD OF CONTROL

The course of Juniata athletics is governed by a body of men composed of representatives of the Trustees, the Faculty, and the student body for the purpose of bringing together in one body the various elements of the Juniata constituency interested in athletics.

Schedules, arranged by the student managers, are submitted to this body for approval, managers are elected, the suitability of opponents and the eligibility of players is considered. The board also makes provision for officials and equipment, as well as numerous other details.

With the growing importance of athletics at Juniata, the work of the Board of Control has become increasingly difficult and its success in dealing with these problems has been very commendable.

M. R. SWARTZ
Head Coach

Completing his fourth year as head coach at Juniata, "Carty" Swartz has given Juniata athletics a decided boost. His ability to develop hard fighting teams and winning teams as well, from the rather limited material offered each year, is nothing short of miraculous.

As a "three-letter" man at Lebanon Valley College, International League baseball pitcher, and later coach at Dickinson Seminary, he acquired a thorough knowledge of sports, and has combined this practical playing knowledge of the game with excellent theory and applied it to Juniata's football, basketball, and baseball teams.

A strong advocate of an extensive intramural program, Coach Swartz has sought and has made great progress in giving every student a chance to participate in some beneficial athletic program. Thus he has not only gained the respect of all by his ability as a coach, but has also instilled in the players and students, a new sense of sportsmanship and determination to play the game "square".

P. M. SNIDER
Assistant Coach

Juniata's able assistant coach is "Mike" Snider, a regular fellow to all who have come in contact with him. "Mike" is the "Simon Legree" of the football linemen, but he shows that light J. C. line how to move those two-hundred-pound opponents (ask G-Burg, Delaware, etc.). During the winter he puts the Freshman basketball team through its paces and initiates them into the Juniata system in preparation for varsity competition. In spring "Mike" also takes over the coaching reins of track and tennis, a job for which he is well fitted by his collegiate experience at Juniata, and into whose coaching staff he now fits extremely well, rounding it into a harmonious whole.

Two years ago Miss Betty Fleck came to our campus to coach women's athletics. She is a former student of this school and a graduate of William and Mary.

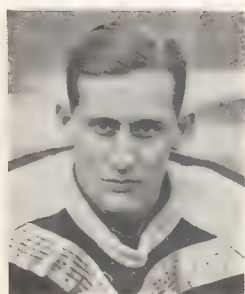

The main interest of Miss Fleck has been to put out a winning team in each respective field. She has molded her material into shapely and cooperative teams, so that in the past two years, Juniata co-eds have lost only three games. In these games, Miss Fleck has instilled good sportsmanship and cooperation into every girl's play.

Miss Fleck has also taken an active interest in the development of hockey, both intercollegiate and intra-mural. This past year, Juniata met Lebanon Valley in an intercollegiate game, and defeated them. The results have warranted the possibility of constructing a new hockey field. In the work of intra-murals, Miss Fleck has done her best, and now has a complete girl's schedule.

Besides these accomplishments, Miss Fleck has aided in the Annual May Day program and has added her contribution to the spring exhibition and the fall home-coming.

The 1933 season of Coach "Carty" Swartz's football team cannot be classed as wholly successful in-so-far as victories go. The Indian eleven won one and tied one game out of the six games played. Yet when we stop to consider the calibre of the teams played and the tremendous odds the Indians gave in weight and reserve material to their opponents we marvel that the results were not worse.

To Captain "Jim" Cook we take off our hats in admiration for having played every solid minute of each game without substitution. A real "iron man"! And in turn we greet the Captain-elect, Galen Hall, veteran guard.

To the coaching staff goes the credit of having filled so successfully with green material the gaps left by Reber, Light, Holsinger, Petty, and Walley.

The men who received their letters for the 1933 season are: Captain Cook, Kistler, Given, Hall, Matlack, Bloomingdale, Daher, Wenger, Shingler, P. Friend, K. Friend, Scott, and Ramer.

JUNIATA 7—GETTYSBURG 14

In the season's opener Gettysburg managed to break the two year Juniata jinx by handing the Swartzmen a 14-7 setback.

The weak Indian pass defense plus the weight and size of the down-state eleven proved too much for the light and small Juniata's, and the Gettysburg team tore through the Juniata defense consistently for gains. However, the fight and determination of the Indians withheld the strong Bullet attack admirably and three times in the first quarter stopped the opposition cold on the five yard line. The stellar guard play of "Shorty" Hall was a feature of the game.

Gettysburg scored in the second period on a pass, Howard to Ott, over the goal line. Howard adding the extra point to make the score 7-0. Juniata tied the count in the last quarter on a steady march down the field, combining some nice running by Cook, Wenger, Daher, Shingler, and Given, who also came through with some nice passes. Captain Cook carried the ball across the line on an off-tackle slant. Scott's hurried kick tied the score at 7-7.

In a desperate attempt to score in the closing minutes of the game, a long G-Burg pass barely missed Given's outstretched fingers and fell into the waiting arms of Houghton, who stepped across the line for the winning tally. Again Howard's toe added the extra point. Score 14-7.

JUNIATA 7—DREXEL 12

On October 14 the Drexel Dragons downed the Redskins for their second defeat of the season in one of the most spectacular games seen on the local field this year. The closeness of the game is partially attested by the score 12-7, making the Dragon jinx six in a row.

During the first quarter the teams staged a punting duel between Given of Juniata and Knapp of Drexel, with no advantage for either.

The Dragons opened the second period with fire and vigor, and marched irresistibly down the field. Petchick made an eleven yard gain and followed with another four. Brevda went around end for eighteen yards, and Fox in two plays carried the ball to the Juniata two yard line. To climax this series of brilliant plays, Brevda, instead of bucking the line, spanked around right end for a touchdown. Knapp's attempted placement was wide.

In a desperate attempt to retaliate, the Redskins began an offensive drive which netted them two first downs. Cook smashed the line for thirteen yards. Wenger and Matlack together contributed eleven yards. With a few minutes remaining the Indians resorted to an aerial attack, only to have Kelly, Drexel guard, intercept a pass and run fifty yards to the eleven yard line where he fainted and fell. In two plays Drexel gained ten yards, then Wirth smashed across for the second score. Daher knocked down the attempted pass for extra point, making the score 12-0 against the Indians.

The third quarter found both teams punting and playing carefully, waiting for a "break". The fourth period reopened the Juniata offensive. Bloomingdale heaved a forty-five yard pass to Daher, who carried the ball twenty-three yards more for a total gain of sixty-eight yards. Shingler picked up five yards which placed the ball on Drexel's ten yard line. On the next play Mel Wenger, in a beautiful broken field run squirmed across the goal for the Redskins' only touchdown. His placement was good, adding an extra point. Shingler started a rally making consistent gains around ends. It was too late to be effective and the game ended with the score remaining 12-7.

The Indians were outweighed on an average of twenty pounds to a man. They gained 209 yards to Drexel's 150 yards, and made seven first downs to their opponent's five.

JUNIATA 27—UPSALA 12

Alumni and students cheered as Juniata's gridders over-came their two-game jinx and with slashing drives sent their Viking opponents to a defeat by a score of 27-12.

The Indians had suffered two defeats and the outlook for the remainder of the season was decidedly dark. However, Juniata forgot her past misgivings and outclassed her opponents in every phase of the contest.

The Upsala eleven opened the game with a bang on a sensational lateral-forward pass which netted them the first scoring honor of the day. With this bit of spectacular success to their credit, the Vikings became over-anxious and fumbled one of Given's punts on their own twelve yard line, which Juniata recovered. Spurred on by this "break", Daher, on the first play, carried the ball for the first Indian touchdown. Scott added the extra point by placement to make the score 7-6.

The second period opened slowly, but soon developed into a one-sided contest. On an exchange of punts Juniata placed the ball on Upsala's thirty-five yard line. The next play, a beautiful pass from Given to Bloomingdale, placed the ball in scoring position. Shingler, replacing Given, gained eight yards through tackle. Captain Jim Cook then slid through the left side of the line for the second Juniata touchdown. Scott's placement was again successful.

The East Orange team had been out-played and out-scored, but they came back strong in the second half. Several minutes after the kickoff they scored on the same play that had netted them their first touchdown. The pass for the extra point failed.

With the score at 14-12 the Redskins soon demonstrated that they had plenty of reserve power. In less than three minutes of actual playing they had scored their third touchdown. A penalty placed the ball on Upsala's twenty-six yard line with Juniata in possession. Wenger, on a sensational broken field run carried the ball for a touchdown, and Scott's placement added the extra point.

The fourth quarter proved to be a walk-away for the home team. On a steady march down the field, Wenger and Cook kept driving the Vikings in retreat. Finally, Wenger, on a nicely executed reverse, scored the fourth Indian touchdown to end the activity for the day.

JUNIATA 12—WAYNESBURG 26

Outweighed and much smaller than their opponents, the Redskins battled against odds too heavy for them, and at times showed a brand of football considerably below par, to taste defeat at the hands of the Yellow Jackets to the score of 26-12.

In the first quarter a Juniata threat ended when Scott's attempted field goal missed the uprights by inches.

In the hectic second period, Waynesburg uncorked an offensive drive that netted them three touchdowns. Although he did not figure in the scoring directly, "Rab" Currie, Jacket halfback, was the big gun in the Waynesburg offensive threats, gaining yard after yard from scrimmage.

Juniata also scored in the second period. Mel Wenger on a pass from Given dashed 65 yards for a touchdown. Scott missed the try for point, making the score 20-6 at the end of the first half.

In the third quarter, Wenger again scored for the Indians on a pass from Daher. The extra point was missed. A long pass in the last period netted Waynesburg another touchdown to end the game 26-12.

JUNIATA 7—LEBANON VALLEY 27

The Indians lost their last home game of the season when the Lebanon Valley Dutchmen snowed them under a powerful last half onslaught, 27-7.

The Indian line was outweighed by about 27 pounds to the man. The lack of reserve material was woefully apparent when Joe Daher was injured after a dazzling 40-yard run.

The lone J. C. score came as the result of a Lebanon Valley fumble recovered over the goal line by P. Friend. Scott added the extra point to put the Indians ahead 7-0 at half time.

In the third period a blocked punt enabled L.V. to tie the score. Rust making the extra point. From this point the Indian spirit seemed broken. In two quick successive thrusts, a beautiful run by Whiting and a pass, Rust to Feeser, brought the total to 20-7. Lebanon Valley scored again in the last quarter when Rust intercepted a Juniata pass and scampered 36-yards for the final score, ending the game at 27-7.

An End Run

JUNIATA 6—DELAWARE U. 6

The Indian gridders brought their football season to a close by battling the Delaware University eleven to a 6-6 stalemate on Saturday, November 25, in a game played at Newark, Delaware.

Due to the open date on the previous Saturday for both teams, the spirit seemed to lag throughout the game. The Indians held the upper hand throughout the game, and the Mud Hens were lucky to gain a tie within the last few minutes of play.

Juniata scored early in the first quarter and held their six point advantage until the last minute of play, when the Hens gained a touchdown by a spurt which tied the score.

Captain Jim Cook displayed unusual leadership in the game, and upheld the morale of the team. His defensive playing was a feature of the game which figured in retarding the advance of the Hens. Jim proved his ability to diagnose the offensive play of the opponents, and was always backing up the line.

Wally Rugh played an excellent game by putting those Mud Hen backs right back into their element. Wally got his big chance in this game and came through with flying colors.

Galen Hall, that diminutive guard, continued to show his determination to do his best at all odds. His pluck and courage were featured when he stopped line plunge after plunge and showed his much heavier opponents a few tricks of the game.

In this last game of the season, three Blue and Gold Warriors played their last game for Juniata. Captain Jim Cook, fullback; Frank Given, quarterback; and Bill Kistler, guard. Although hampered by some injuries, "Rats" Given proved a capable general for the Indians. Not only was he an accurate passer, but his punting was the feature of the Redskin's play, the punts averaging well above 40 yards each.

In Bill Kistler, Coach Swartz had one of his steadfast linemen. With one year of varsity experience at Juniata, Kistler has filled his guard position well, both on offensive and defensive.

With a world of material for next year, Coach Swartz will attempt to put a team on the field that will win many honors and be worthy to be called, The Juniata Indians.

About twenty candidates reported to Coach "Carty" Swartz in response to his call for the initial practice of the season, many of whom had a large experience previously as varsity men.

Five lettermen of the previous season returned to the squad. Captain Forrest Burlew, playing his fourth year on the Indian five, "Mel" Wenger, Harry Hummel, "Babe" Matlack, and "Rats" Given. In addition to these, Joe Daher, who played in many of the games last season, Merle Garner and Bill Scott, who showed up well on the 1932-33 Freshmen squad, the former proving his worth by winning a varsity forward position.

The lack of a tall pivot man has been for the past few years and again this year, the major factor in many of the Juniata defeats. The Indian five of the 1933-34 season was about as short as college teams get to be, and to make up for this lack of height, Coach Swartz concentrated as much as possible on speed and deception in whipping together a winning combination in time for the first game, January 6.

The Swartzmen dropped their first basketball game of the season to the Penn State five by a 39-19 score at State College.

The Indians played superior ball throughout the first half to lead their opponents 12-11 at the end of the period. However, their defense weakened decidedly during the last half and the Lions were able to roll up a twenty-point lead before the final whistle blew.

The distribution of points was rather even, Captain Burlew leading the Juniata scoring with 7 points to his credit. For Penn State, McFarlane led the attack with 23 points.

In their first home game, the Indians dropped a see-saw encounter to the Wheaton College five from Wheaton, Illinois, 40-28. After playing the westerners on practically equal terms during the first half, the Juniata lads tired and allowed their opponents to pile up a lead. Wheaton held a three point lead at half time, 20-17.

On their first road engagement, the Redskins lost a close one to Dickinson at Carlisle, 28-22. The game was closely fought throughout, and it was not until the last few minutes that the Carlisle rivals were able to forge ahead. When the half ended, Juniata was trailing 11-12.

The Warriors fought their way into the win column when they disposed of a weak Elizabethtown College five at E-town to the score of 45-16. Coach Swartz used all his reserves in this game to give them experience. "Babe" Matlack led the Indian attack with 16 points.

The Tap

The W. & J. Presidents were scalped on the local floor for the third successive time by a score of 28-24 in a thrilling game.

With Garner leading the way, the Indians jumped into the lead by rushing the Presidents off their feet. However, W. & J. came back and led at half time 15-12.

The foul-shooting of the Warriors was responsible for the margin of victory. Juniata making good 8 of 10 tries.

In a loosely played game, the Blue and Gold passers again defeated the Elizabethtown College cagers on the home floor 41-18.

Playing minus the services of Captain Burlew, the Indian attack was slow getting under way, but after taking a 22-11 lead at half time, the Redskins were never headed.

For the fourth time in succession the Warriors handed the W. & J. passers a setback. This time on the Prexies' home floor to the tune of 43-33. "Babe" Matlack set a new Tri-state scoring record when he threaded the hoop with 9 field goals and 8 foul shots for a total of 26 points.

The next stop for the Indians on their Western tour was Waynesburg. The Blue and Gold took it on the chin from the fast Yellow Jacket team 49-26.

The superior shooting ability of the opponents was the big factor in their victory, and they outclassed their Redskin rivals all the way.

Somewhat tired after their previous two hard games, the Indians lost again to St. Vincent at Latrobe, the score being 32-24.

The Swartzmen led their rivals 18-10 at half time, but a second rally put the opposition ahead and the Indians were unable to overcome the lead of their foes. The low ceiling of the playing court prevented numerous Juniata shots from registering, and aided materially in the Indian downfall.

In perhaps the neatest shooting attack seen on the Juniata floor during the season, Waynesburg College's Yellow Jackets downed the Indians in a game which ended 51-28.

A tight man-for-man defense succeeded in holding the score to 20-17 at the end of the first half. In the second half, Juniata forged to the front 21-20 on several neat shots by Matlack, but it was merely a dying gasp. The Indian defense crumbled as the Jacket's powerful attack began to register, and did not raise itself while the Green Countians added a 23-point margin.

Follow In

The Blue and Gold passers returned from the stamping grounds of the Bucknell Bisons on the short end of a 35-28 score.

The game was closely played from the start, until the end of the first half which ended in a 14-14 deadlock. In the second half the Bisons forged ahead and finally finished on the long end of the score. Mel Wenger was high scorer for the evening with six field goals and three fouls totaling fifteen points.

Playing slip-shod ball, the club was slow in getting started against Moravian College, and played listlessly throughout the greater part of the game. Shortly before the end of the first half, the Indians began to hit their stride and were able to end the session with an 18-10 lead.

In the second half Juniata began to find the loop consistently, meanwhile, holding Moravian without a field goal, until shortly before the whistle blew to permit a whole reserve team to enter the game. When the game ended, the Swartzmen were leading 34-21.

The Indians traveled to Bethlehem and again defeated the Moravian College five, this time by a score of 27-23.

According to the score it was a close game, but in other respects lacked finesse. The Indian attack started to click like a machine and appeared to be able to score at will during the first period, but later this offense bogged down and from that point on, the game was a drab affair.

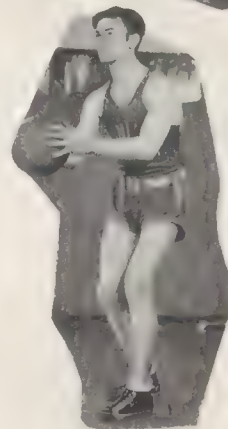

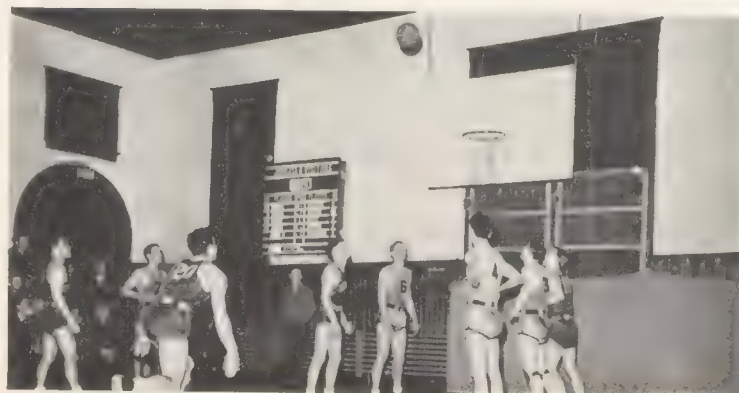

Through being able to function better as a team, the Varsity was able to stop the flashy and often brilliant attack of the Alumni and emerge on top with a 33-25 score in their favor. "Mel" Wenger came through with five field and four foul goals, totaling fourteen points.

Thus by virtue of their win over the Alumni, the 1933-34 basketball team balanced its number of wins against its losses, presenting a ledger of seven games won and seven lost. Playing under tremendous handicaps, the loss of the services of Captain Burlew and Harry Hummel, plus the great disadvantage in lack of height, we can truthfully say that the Indians had a good season.

Leafing through the score book we discover that "Babe" Matlack, stellar guard, led the scoring with a total of 122 points for the fourteen games. Captain Burlew netted 38 points in the five games in which he played. Six men won their varsity "J" for the 1933-34 season: Matlack, Daher, Given, Wenger, Garner, and Myers. Of these, only Myers will be lost by graduation. Captain Burlew and Hummel will also be lost to the next year's team.

FRESHMAN BASKETBALL

A glance at the Freshman basketball season reveals that it was not particularly successful. The frosh managed to pull three games out of the fire, but had the misfortune to drop ten of the thirteen games played. This was due largely to the inexperience of the team, very few of whom had ever played basketball prior to college entrance, and great credit must be given to Coach Snider for his patience and unstinted hard work in developing this green material into some semblance of a winning combination. At the end of the season the frosh were able to give any of their opponents a run for their money. Their showing against Lewistown on the local floor was strikingly different from the score made against them on the enemy's court—the Lewistown boys were lucky to eke out a one-point victory, while the score of their first meeting almost tripled that of the freshmen.

The Juniata baseball nine concluded one of its most successful seasons in recent years by meeting only one defeat during the 1933 season to win the championship of the Eastern Pennsylvania Intercollegiate League for the second successive year.

Led by their hurling ace, Captain Fraker, the Indians ran roughshod over most of their opponents through the season, bowing only to the Drexel Dragons in league competition, and coping every non-league game.

Most notable of the Swartzmen's victories were the 3-1 triumph over the hard-hitting Gettysburg team, a ninth inning win over Bucknell by an 8-4 score, and the 7-1 lacing handed to Albright.

The Indians chalked up their initial win of the season when the E-town nine fell before a mighty onslaught of batting and pitching. The score, 12-0.

Although uninteresting to the spectators, the game gave Coach Swartz an excellent opportunity to sample the new material which had donned suits. Five pitchers and five players of other positions were used during the progress of the game and gave evidence of real power.

The Indians managed to crash out fifteen hits, four of which were extra base hits. Jack Nicholson, playing his first year as a regular third baseman, claimed heavy hitting honors with two three-base hits and two singles. Roscoe Wareham also smacked the ball for three singles and a double out of five times at bat.

In the opening league game, the Ursinus Bears fell an easy prey to the heavy, well-timed hitting of the Swartzmen. The excellent pitching of Captain Fraker, and the three hits by Harry Hummel were the outstanding performances of the day. The final score was 7-1, with the Bears at no time dangerously threatening the Indians. The Collegeville boys' only score came when Heck crossed the plate on a three-bagger by Johnson.

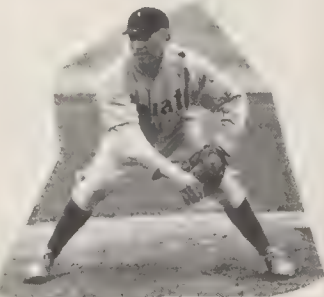

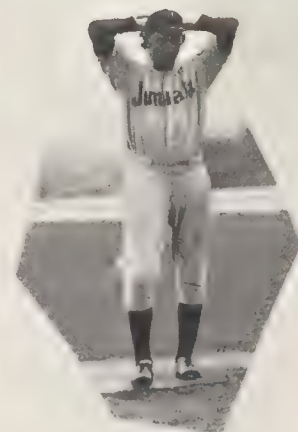

In a game that lacked many thrills, the Drexel Dragons conquered the Juniata Indians by the score of 10-5.

Starting out with a bang, the Dragons scored six times before the Indians had scored once. It seems as though the old jinx still held, because Juniata just didn't seem to be able to get going, and didn't score until the sixth inning.

Coach Swartz used Matlack, and Daher relieved him on the mound, while Kean went the whole route for the winners. Hummel was the heavy hitter with three hits.

The final game of the three-day tour put Juniata into the lead in the Eastern Intercollegiate baseball league by virtue of a sensational ninth inning rally which gave the Indians the scalp of the Bucknell Bisons 8-4.

Matlack pitched the whole way until the last inning, when Fraker came in from right field, after Daher had pinch-hit for him, and hit a home run with two on, which put Juniata in the lead. The Indians scored six runs in the last inning, after trailing 4-2 from the sixth inning.

As a fitting climax to the annual May Day celebration, the Juniata Indians swamped the Albright nine by the score of 7-1.

Juniata took the lead immediately when Kennsinger scored on Hummel's triple. This was the only score until the third inning, when the Swartzmen went on a hitting spree and scored four runs. From then on their lead was never threatened. "Dick" Fraker, veteran moundsman for the Indians, struck out eleven men, nine of whom were in the first four innings. Albright used two pitchers, but were still unable to keep down the powerful hitting of the local nine. The Juniata infield functioned flawlessly and showed itself of real championship calibre by completing the game without an error.

The Redskins garnered ten hits off the Albright offerings as compared to their three. Harry Hummel led the batting attack with three hits, including a double and a triple. Wareham and Nicholson shared second honors, garnering two hits apiece.

The Swartzmen took the Eastern Intercollegiate league pennant for the second successive year by virtue of a 3-1 victory over Gettysburg. The hard-hitting Bullets were limited to five scattered hits by Captain Fraker, Juniata hurling ace. Harry Hummel, crack Indian outfielder, was the big gun in the Juniata offense. His home run and triple being responsible for all of his team's runs.

The scoring started in the first inning. Kennsinger, second man up, hit a hard double to left center. Hummel then connected with a high ball and drove it far into deep center for a home run inside the park, scoring Kennsinger ahead of him. Again in the third frame, Hummel smashed a triple against the wall in right center and scored soon after when Given was safe on Dracha's error. The lone G-Burg score came in the fifth inning when Houghton scored from second on Eby's double.

The Juniata baseball team added another scalp to its war belt of victories when they defeated Mount St. Mary's 3-0 on the enemy's home field. The Indians made four hits good for three runs, while St. Mary's was held scoreless with the same number of hits.

The Indians scored twice in the fourth inning on two hits, one of them Whitman's triple, a walk, an error, and a force-out. They came back in the next frame to score a single tally on two walks, a sacrifice, and an infield out. Brilliant fielding in the outfield was the feature of the contest.

The following day the Redskins swamped Elizabethtown for the second time in a deluge of hits. Striding along with apparent ease, the Juniata team chalked up thirteen runs against a lone tally for E-town. Although held to one hit until the eighth inning, the E-towners managed to score one run.

The championship Indian nine closed a successful season by downing the Alumni team in a 19-11 slugfest. Besides hitting a home run and a single in his last collegiate game, Captain "Dick" Fraker pitched fine ball against this aggregation of stars of former years.

Art Steele started things for the Alumni in the first inning with a three base hit. Laporte, next up, drove him in with a home run. The Varsity going into the second inning, scored two runs, with Fraker hitting his home run. Again in the fourth they piled up five runs from four hits.

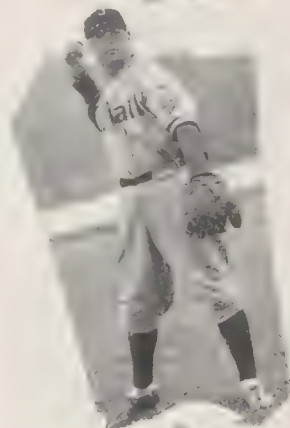

In an extremely loosely played sixth inning the graduates scored eight runs to take the lead. But the Varsity came back the second half of the same inning on a home run by Hummel, a triple by Wareham, and a wild throw, to put the score 13-11. In the seventh and eighth the Indians scored six more tallies, which left the score at 19-11.

A glance at the score book shows that Harry Hummel, diminutive left-fielder of the Juniata Indians, was the big gun on the offense. Hummel led the Indian swatters with a batting average of .421. Jack Nicholson, who played a steady game at first base, was second with an average of .379, and Wareham was third with a .314 average.

Fourteen men received letters for the 1933 season: Captain Fraker, Petty, Kennsinger, Kunsman, Scott, Hummel, Whitman, Daher, Matlack, Given, Wareham, Nicholson, and Manager Glenn.

Front Row: Rickets, Saltzman, Jones, Ramer, Pletcher.
 Second Row: Dutlinger, Kistler, Captain Cohick, Myers, Flegal.
 Third Row: Manager Good, Fleming, McCartney, Garner, Green, Hershberger, Coach Snider.

The chief concern of Coach "Mike" Snider as the 1933 track season swung around was the development of a new mile relay team to replace the lost members of the previous year's winning combination, which was composed of Rowland, Fetner, Bloomingdale, and Light. Of these Light remained, along with Pletcher, who was the previous year's alternate. To fill the vacancies Coach Snider's most promising candidates were Jones, Ebersole, Fleming, and Ramer. The team was finally narrowed down to Light, Pletcher, Jones, and Kistler.

For the past two years the Juniata relay team had taken the trophy in the class B Central Pennsylvania Colleges section of the Penn Relays. The year before, after having carried their baton to first place in their class, the Juniata speedsters took fourth place in the Middle Atlantic States Colleges event.

The quartet of speedsters representing Juniata at the annual Penn Relays, placed fourth, in the Class B Central Pennsylvania relay championships.

The Juniata entry made a strong, gallant bid to retain the crown it had won the previous year, but could do no better than place fourth. Dickinson College, in previous years, a class A entry, won the race in the fast time of 3:29, with Haverford, Susquehanna, Juniata, and Drexel following in the order named.

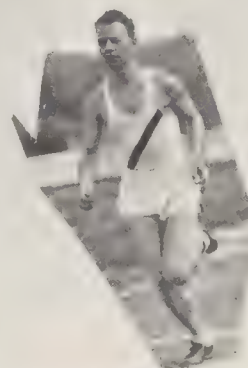

Walter Light, Oden Pletcher, "Jimmie" Jones, and "Bill" Kistler were the Juniata representatives at Penn.

Under adverse weather conditions, Juniata's aggregation of track and field stars met the Bisons of Bucknell University in a dual meet. The jaunt to Lewisburg was unsuccessful, as the Indian athletes were repulsed by the Bisons by a score of 74-52.

The Bucknell margin of victory was attained by virtue of a clean sweep in the broad jump and by garnering practically all the points in the 100 and 220-yard dashes, and the pole vault. The victors gained nine of the fourteen first places. Juniata made outstanding performances in the distance races, where she gained the majority of her first places.

Confidence.

Continual rainfall and a muddy track made outstanding achievement impossible. Nevertheless, good performances were turned in by both teams. Wilkinson, a Bucknell freshman, was high scorer for the day, with fifteen points, garnered by virtue of first places in the 100, 220, and 440-yard dashes. Myers, a Juniata distance man, garnered two first places in the half-mile and mile runs. Captain Cohick gave a splendid and gritty performance, despite a painfully injured ankle, when he ran the two-mile run in the splendid time of 10 minutes 30 4-5 seconds, just one second short of the college record. Scott, Juniata weight man, contributed six points, with a first in the discus and a third in the shot, while McDonough had Juniata's other first place, by virtue of a five-foot six-inch leap in the high jump—a good jump considering the weather.

The Indian track squad, entered in the Central Pennsylvania Conference Track Championship in class B with Drexel, Albright, Susquehanna, and Ursinus, won third place at Carlisle.

Although surpassing Susquehanna and Ursinus, the Juniata men were overcome in the weight events, where Drexel and Albright secured their lead.

Cohick, Indian captain, was the only winner, taking the two-mile run easily. He ran a beautiful race and received the biggest hand of the day. Myers, veteran distance man, after leading most of the way in the mile run, was nosed out in the finish. Light, Indian sprint man, took second in the 440-yard dash, and Pletcher was just beaten in the 220-yard low hurdles. This last event took place in a driving rain.

In the field events, McDonough took second in the high jump, and Dutlinger third in the pole vault. The Juniata team scored altogether 33½ points, Drexel 44, Albright 35, Susquehanna 31, and Ursinus 24.

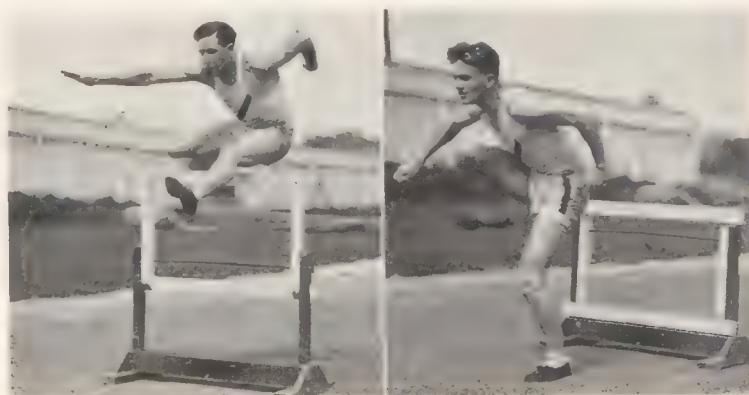

In the final meet of the season, the track men of Juniata College suffered a 77-49 defeat at the hands of the strong Waynesburg College team on the College Field.

The visitors were able to pile up eleven first places out of fourteen events. Shelton, who was the leading man of last year's meet, again took honors with three firsts and a second place.

The events in which Juniata took first place, were the one-mile, taken by Jack Myers, in four minutes, forty-one and a half seconds to break the college record by three seconds; the two mile, won by Captain Kenneth Cohick; and the shot put won by Bernard Holsinger.

The 1933 track season cannot be called successful by any means, but it is hoped that the experience gained by the season's work will yield its results when the Indians take to the cinder paths again this spring.

The Redskins will greatly miss the services of Captain Cohick, Light, Holsinger, and McDonough, all of whom were consistent point winners. Those who received their letters for the 1933 season were: Captain Cohick, Light, Pletcher, Flegal, Holsinger, Shingler, Ramer, McDonough, Scott, Myers, Kistler, and Manager Good.

Graybill, Burkholder, Burlew, J. Wenger, Stewart, Settle, Geisler, Coach Snider.

As a nucleus around which to build his hopes for a successful tennis season, Coach Snider had the veterans Stewart, J. Wenger, and Settle. Along with this material he received additional strength in the persons of Burlew, Geisler, Burkholder, and Graybill, to round out his squad for the 1933 season.

Due to inclement weather the schedule originally prepared by Captain-Manager Wenger, was very much curtailed. Nevertheless, the season, short as it seems, was very successful. The Indian racquet wielders dropped only one match of the five matches played. The highlights of the season were the close defeats administered the powerful Lebanon Valley and Albright aggregations.

The Indian tennis team opened its season on the home court with a victory over Lebanon Valley. It was a close match, and victory was not assured until the final doubles match in which Geisler and Stewart defeated Lehman and Walburn of Lebanon Valley.

Stewart, Wenger, and Settle won their singles matches. Settle staged a fine comeback; after losing the first set, 2-6, he won the next two, 6-3, 6-4. Stewart had the most decisive victory, defeating Wye of Lebanon Valley, 6-4. Captain Johnny Wenger won his match, but was extended to three sets, 6-4, 3-6, 6-4.

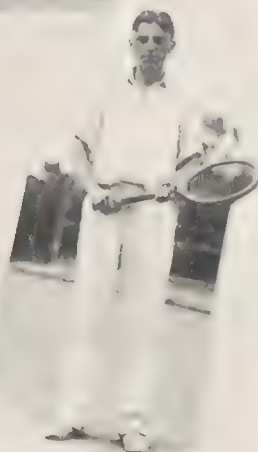

The annual eastern tour of the tennis team was rather sadly wrecked by rain. However, the Juniata men managed to return home with the scalp of the strong Albright quintet dangling from their belt as evidence of an impressive 4-3 victory.

Of the seven individual matches in the Albright contest, the Indians swept three singles and one doubles match. Stewart, playing number two man for Juniata, won in straight sets, 6-4, 6-4. Wenger swept his man before him, being forced to three sets. Settle, after losing four games in his first set, proceeded to take the next twelve games in a row, to win 6-4, 6-0. The deciding match of the day, however, proved to be the doubles match, which Wenger and Burlew won, 6-3, 6-4.

Doubles

In the second home tennis tournament played on the hill courts, the Juniata court-men inflicted a 7-0 defeat on the Elizabethtown netmen.

After losing the first set, and trailing in the second set, 4-1, Wenger staged a mighty comeback to take the set at 7-5. He also claimed the second set on a 6-2 score. Settle had very little difficulty in taking his match, 6-1, 6-3. Burlew defeated his opponent by the same score. Stewart outplayed his man to win easily his sets, 6-2, 6-3, while Burkholder, playing as number four man, in place of Geisler, met with a little stiffer competition. He, however, took Weaver into camp with 7-5, 6-2 results.

In the doubles matches, Stewart and Geisler completely baffled their opponents to win in love sets, while Wenger and Graybill took their game to make it a clean sweep for the Indians.

Displaying a fine brand of tennis, the invading Dickinson netmen managed to swamp the Indian racqueteers by a 7-2 score. The invaders scored their win by taking four singles matches and by making a sweep of the doubles matches.

Stewart and Wenger were the only winners for Juniata. The former played heady tennis to eke out a win, 6-4, 4-6, 7-5. Wenger put up a great fight and played a smashing game to win his match.

The Juniata netmen closed their season by trimming the Alumni 3-0. Although a large representation of former tennis stars were expected to return, only three racquet wielders appeared. The doubles were interrupted by the dinner bell and were postponed indefinitely.

Captain-Manager Wenger and Geisler were the only men on the squad to be lost by graduation. The outlook for the 1934 season was very much brightened by the fall inter-class elimination tournament, which brought to light a wealth of material in the freshman class. From this group, Coach Snider will add to his remaining lettermen in an attempt to build a team to defend Juniata court honors during the 1934 season on a par with former Juniata net teams

WOMEN'S BASKETBALL

Under the capable direction of Coach Betty Fleck, the Juniata co'eds basketball team completed another successful season by winning three out of five games played.

At the beginning of the season, Juniata was defeated by Elizabethtown on the home floor. Then, the Lebanon Valley girls came to Huntingdon and again the Juniata girls failed to click, and lost their second successive game. This game, however, was a very hard fought game, ending 17-16.

The Juniata co-eds traveled to Elizabethtown and took this game by the score of 24-19. The Juniata forwards had at last hit their stride and from then on were hard to stop. To complete this trip, Coach Fleck's lassies defeated Lebanon Valley 33-32. This game was undoubtedly one of the best ever played by either team. It was a nip-and-tuck affair all through, and the winner was known only when the final whistle was blown.

Drexel ventured up here on the day of the Men's Basketball Homecoming and were defeated 17-16. The teams were evenly matched and the game was interesting throughout. With this game, the Juniata girls closed a most successful season.

CHARLOTT FLECK

Side Center

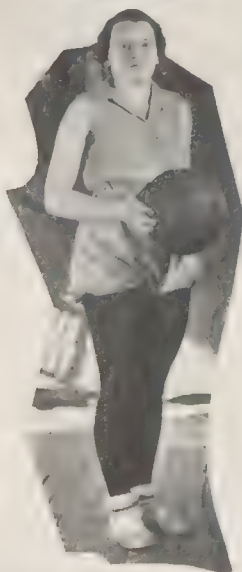

For the past two years, Charlott has held her position as a most worthy side center, animating new pep and spirit in the team, especially in the most critical moments. Charlott's ability to keep the forward section busy did much to make this a successful season. Her speed and pep will be greatly missed next year.

BESSIE CUPP

Guard

As a guard in her first year, Bessie has shown a fine will to work and fight. She was one of the few freshmen to win her varsity letter this year, and it came about through good hard work. Her playing in the Drexel game was a feature and has shown herself to be a fighter in every respect of the game.

BEULA GONGAWARE

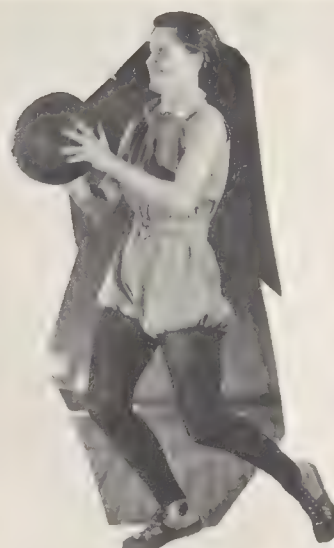

Side Center

Fighting fairly and squarely, Beulah has been a great asset to the Juniata team this past year. Her dependability and co-operation will make her one of the most outstanding players of the next season. She has been elected manager of the team for the coming season.

JANE TRUDE

Forward

Although Jane did not come out at the beginning of the season, she made the first team with her speed and shooting ability as an asset. She not only plays basketball, but she knows the finer points of the game. Her high scoring in the Lebanon Valley game was the feature of the year. She is hard to guard and is expected to go great next year.

BETTY WILSON

Guard

Here is a real guard, one who was always in the way of the opponents' attempted plays and who was always intercepting them and hurrying them down the floor to her forwards. This was Betty's first year at the guard position and we believe she has done a very good job there. Betty always kept fighting, no matter what stage of the game, and always carried the fight to the opponents.

NAOMI RANCK

Center

Juniata needed a center this year, and Naomi sure did carry on the work to a high degree. Her height was a great asset and her ability to jump was too much for her opponents. She is another of the freshmen to earn her letter this year, and brought honor to her class in this respect. The team could not have done without her playing and she will be expected to do a lot in the coming season.

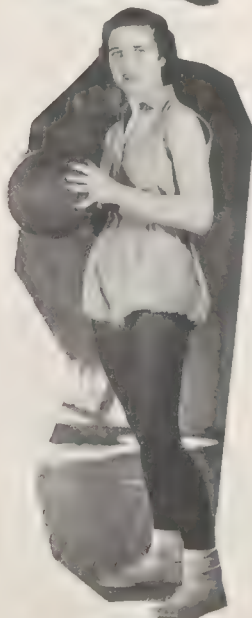

MAUD GREENWOOD

Guard

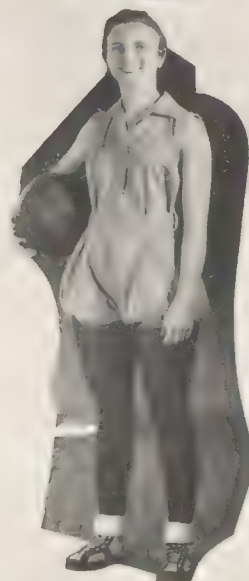

Maud is a guard of strength and ability. She is always prepared to cover the ball at every angle and her anticipation of the opponent's plays was a feature of the games this year. She worked as well with one guard or another, and this is a real test for any position. Maud has played two years, and she can and will be depended upon for the coming basketball seasons.

MARGARET PRYCE, Captain

Forward

Peg was as usual, the best shot at forward position. Whoever saw her play will never forget her "long shots" and "dribble in" shots. Peg was a member of the varsity team for three years, and in her career here, she has made her mark as the high scorer. Her outstanding play and loyal support will be hard to replace, and equally as hard to forget.

PAULINE KAUFFMAN

Forward

Polly, playing her third year of varsity basketball at Juniata, has made herself a name in that respect. She is a peppy little forward and a cheerful scrapper who never once gets excited or ruffled. Polly plays the game with her partner and this cooperation was always present on the courts of the past season. She has been elected captain for the coming season.

GIRLS' HOCKEY

For the first time in the history of Women's athletics at Juniata College, a varsity hockey team was formed. Since this formation, work has been started in preparation for making a girls' hockey field next to the football practice field. It is hoped that a varsity hockey team will be added to the sports program of the Juniata co-eds.

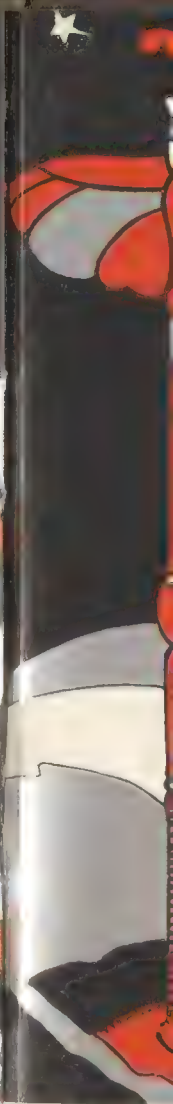

This newly organized team defeated Lebanon Valley, 1-0, in the only game of the year of intercollegiate type. With a strong backfield and a progressive forward line, the co-eds advanced into their opponents' territory time and again. Captain Charlott Fleck capably led the team to a well earned victory. The entire team showed the excellent coaching of Miss Betty Fleck.

Front Row: Harley, Kauffman, Replogle, Fleck, Pryce, Cupp, Lewis.

Second Row: Owens, Wilson, Greenwood, Bollinger, Noffsinger, Smith, Wampler.

"You have been favored in attaining the goal of a college diploma in a time when to a vast multitude this has been denied."

"The world in which you live, be it large or small, ought to be a richer world, a happier world, a better world, because you have had the chance to get a college education and accepted it."

"Your education is not an individual possession, it is not even a social heritage, it is a divinely bestowed stewardship, for which you must one day give account to ALMIGHTY GOD."

These statements selected from the President's Baccalaureate address to the Class of 1933 are indicative of the spirit in which the College hopes to carry forward its program. To this end Juniata continues to solicit the patronage of Christian parents and earnest and right-thinking students.

“I Believe”

WE recently saw this “Teacher’s Creed,” written we do not know by whom:

“I believe in boys and girls—the men and women of a great tomorrow. I believe in the curse of ignorance, in the efficacy of schools, in the dignity of teaching, and in the joy of serving others. I believe in wisdom as revealed in human lives as well as in the pages of the printed book—in lessons taught, not so much by precept as by example, in ability to work with the hands as well as think with the head—in everything that makes life large and lovely. I believe in beauty in the home, in the schoolroom, in daily life, and out of doors. I believe in laughter, in love, in faith—in all ideals and distant hopes that lure us on. I believe in the present and its opportunities, in the future and its promises, and in the divine joy of living.”
